NO. 146.

SUNDAY CLOSING BY-LAW STANDS

COUNCIL WOULD NOT TAKE IT UP AGAIN

Deputation From City Churches Demands No Retreat Be Thought of.

Fruit, confectionery, ice cream and tobacco in any form cannot be purchased in Victoria, in stores, on a Sunday after July 14th. By seven to four the city council last night decided to stand by the Sunday closing by-law which was finally passed last week.

Ald. Humber's motion for its reconsideration was voted down.

There was a large gathering of church members present in the council chamber, drawn there by the announcement that an effort would be made to have the by-law killed or amended. Before the council went upstairs they were waited upon by a small deputation representing city churches, who came to urge a "stand pat" attitude. In the deputation were Rev. T. E. Holling, Metropolitan church; Rev. H. A. Carson, Congregational church; Rev. F. Letts, representing the Baptist churches; W. H. Parsons, representing Centennial church; J. B. McCallum, Mrs. Jennings, Miss Merton.

Mr. Holling said the referendum vote last January showed what the people of Victoria desired and the council, as their elected representatives, could do nothing else but carry out their wishes. When a majority of the people instructed the council to legislate for clean, moral conditions it had to meet their wishes.

Mr. Carson drew a favorable contrast between Victoria's Sunday and Seattle's. As for tourists wanting fruit or ice cream they were such regular customers at restaurants and hotels to cater to that trade.

Mr. Letts said he could assure the council of the support of every right-thinking man.

Mr. Parsons said he knew of some easterners who had come here to reside but gave up the idea, declaring that they would not bring up their children where conditions were such as they were here on Sunday. They were going to sell out their interests and one had already done so.

Ald. Humber declared that if a by-law was framed which would prevent the selling of ice cream, fruit, tobacco or refreshments by anyone he would vote for it, but he protested strongly against action which would throw the trade in these into a few hands on Sunday, giving them a monopoly.

Mr. Holling remarked that the mandate of the people was that all stores be closed, and that was being met in this by-law. "I have been informed to-day," added Mr. Holling, "that our restaurants, several of them, are doing an all-night business in selling liquor. Until twelve o'clock they have the theatre crowd, from that until two o'clock they have the gamblers and from two to four or five they get the bawdy-house patronage."

"Can you prove that?" asked Ald. Humber.

No, he could not, Mr. Holling replied.

"Then you should not state it," said Ald. Humber.

Mr. Holling suggested that the question of selling liquor by restaurants on Sundays the council could take up itself and deal with.

Mayor Hall reminded him that the council had gone as far as it could in legal proceedings. The matter was one of legislation and the council could not stop restaurants serving liquor with meals any more than it could stop a hotel doing so; it might as well try to stop the sale of a plate of soup in a restaurant as a dish of ice cream. The council had to look at these matters in reason.

Mr. Holling considered that it was rank injustice to saloons if a person could go into a restaurant at 3 a. m. and secure liquor. All should observe the same hours for selling and for closing the sale of liquor.

Mr. Carson promised the council that if any member of it introduced legislation to prevent restaurants selling liquor he would have the support of all the churches.

"You will have to get that from the legislature," said the mayor. "We tried and were beaten."

Later in the evening Ald. Humber moved, seconded by Ald. Turner, that the by-law be reconsidered. He wanted the Sunday part of it knocked out and Ald. Turner, in any case, wanted to do away with the obligation to make a declaration every time a license is renewed, which happens twice a year.

The motion was defeated on the following vote:

Ayes—Aldermen Stewart, Ross, Turner and Humber.

Noes—Aldermen Henderson, Fullerton, McKeown, Mable, Bishop and Raymond and the mayor.

Ald. Henderson then said he had pleasure in moving the final adoption of the by-law, and in doing so made a lengthy defence of himself from the imputation of rushing the by-law through its final stage a week ago.

WOMEN KILLED IN AUTO ACCIDENT

CAR COLLIDES WITH TRAIN AT SPOKANE

Machine Dashes Into Freight Cars Near Seattle—Seven Persons Injured.

(Times Leased Wire.)
Spokane, Wash., June 29.—Three women and four men are in the county hospital at Georgetown, a suburb of this city, this morning suffering from injuries that are expected to cause the death of two members of the party as the result of a collision between the automobile in which they were riding and a string of freight cars on the Northern Pacific tracks near Van Asslet about 1 o'clock this morning.

The fatally injured: Carl Schott, chauffeur, Seattle; Grace Thompson, Seattle.

Seriously injured, Hattie Webster, 306 Granville avenue, Vancouver, B.C.; Ada Weber, Seattle; Ben. Bowman, Seattle; R. A. Lutz, Seattle; Chas. Rose.

The accident occurred at a point where the roadway passes over the Seattle-Tacoma interurban car tracks and the Northern Pacific railroad line. The automobile, driven by Schott, was travelling at terrific speed as it approached the car tracks, and in avoiding an interurban train, the machine was sent crashing into a number of freight cars being switched on to a spur track. The speed at which the automobile was travelling was so great that it was smashed to a heap of wreckage by the shock of the collision. The accident was witnessed by the crew of the interurban train, and the injured persons were brought to the hospital at Georgetown.

Little could be learned from the members of the ill-fated party regarding the accident, and it is believed that several of the names given by the injured men and women are fictitious.

WILL CONSULT ITS OWN LAWYER

AT ELEVENTH HOUR COUNCIL SO DECIDES

Aldermen Want to Know Why City Barrister Was Ig- nored Before.

A special meeting of the city council will be held to-night to deal with the water question. At last night's meeting the opinion of E. P. Davis, K. C., Vancouver, was referred to W. J. Taylor, K. C., the city barrister, who will give his opinion on the extent of the city's powers to expropriate the undertaking of the Esquimalt Waterworks Company.

There was some comment at the meeting in regard to the council having gone over the head of its own consulting counsel, who is considered one of the cleverest and ablest lawyers in Canada, to get the advice of an outside lawyer, no matter how eminent. It came out that Mr. Taylor's opinion never has been asked on the matter before. The suggestion to consult Mr. Davis was made to the council on June 10th by City Solicitor Mann, who said he was "an absolutely free and unbiased man and the most eminent in the whole province."

This leads up to an interesting little story. It appears that at the private session of the council held last Thursday evening, after Mr. Davis' letter had been read and Mr. Taylor had been asked for an opinion, the latter turned to City Solicitor Mann and treated him to a dignified and gentlemanly talking to which was enjoyed by the aldermen. Mr. Taylor objected particularly to the imputation of bias on his part contained in Mr. Mann's description of E. P. Davis as "unbiased." "It is understood that Mr. Mann denied using the words, but the members of council present had all heard him, and they said so. In the end, it is said, Mr. Mann apologized. So far as is known, however, the council gave no indication nor explanation of its motive in ignoring its own counsel and asking an outside opinion before requesting his."

Ald. Turner asked last night if the city solicitor and city barrister had consulted with each other in connection with this matter before the getting of Mr. Davis' opinion.

"You would have had your answer if you had been present on Thursday evening," remarked Ald. Fullerton.

"I suppose the solicitor and barrister consult on all these matters," said Ald. Turner. "I think it is in the public interest to know what the barrister and solicitor were doing in this matter before sending to Vancouver for an opinion. I am entitled to this information, and the public is entitled to it."

City Solicitor Mann modestly excused himself from answering on the ground that it was not of public interest.

"It is evident on the face of this resolution to refer Mr. Davis' opinion to Mr. Taylor now that our barrister's opinion has not been asked before," said Ald. Henderson.

"Take it, then, that the solicitor has acted off his own bat in recommending that Mr. Davis' opinion be asked," Ald. Turner said.

Ald. Turner will post a notice of motion asking the question the solicitor would not answer.

STORM FORCES ZEPPELIN TO LAND

Will Resume Voyage When Air- ship Has Been Repaired.

(Times Leased Wire.)
Bieberach, Baden, Germany, June 29.—After battling three hours with a storm, Count Zeppelin, who ascended in his airship at Friedrichshafen last night, was compelled to land here for repairs.

WOMEN KILLED IN AUTO ACCIDENT

CAR COLLIDES WITH TRAIN AT SPOKANE

Machine Dashes Into Freight Cars Near Seattle—Seven Persons Injured.

(Times Leased Wire.)
Spokane, Wash., June 29.—Three women and four men are in the county hospital at Georgetown, a suburb of this city, this morning suffering from injuries that are expected to cause the death of two members of the party as the result of a collision between the automobile in which they were riding and a string of freight cars on the Northern Pacific tracks near Van Asslet about 1 o'clock this morning.

The fatally injured: Carl Schott, chauffeur, Seattle; Grace Thompson, Seattle.

PRINCE VON BUELOW INTENDS TO RETIRE

Will Give Up Office When Financial Reform Measure is Disposed of.

(Times Leased Wire.)
Berlin, June 29.—According to an authorized announcement here to-day, Prince von Buelow intends to retire from the chancellorship of the empire as soon as the pending finance reform measure is disposed of.

DROWNED IN SAUGEN RIVER

Hasover, Ont., June 29.—Alice Wright, a daughter of a prominent local business man, was drowned here last night in the river Saugen. She was attempting to swim across the river, but became weak, and went down. Efforts of two companions to rescue her failed.

PITTSBURG STRIKE IS CALLED OFF

Differences Between Street Railway Company and Em- ployees Settled.

(Times Leased Wire.)
Pittsburg, June 29.—The cars of the Pittsburg Traction Company are being operated as usual to-day, the strike of carmen having been settled last night. The agreement was reached at a conference between the union men and the company's officials in Mayor Magee's office.

The strike was the outcome of but two points of difference. One was the neglect of the car company to shorten "sawing runs," and the other its refusal to reinstate discharged men without proper hearing.

These points were settled in a manner satisfactory to both sides, and the strike was immediately called off.

President Mahon, of the National Association of Street Railway Employees, to-day declared that the strike settlement is the greatest victory ever won by organized labor in the history of the country.

"Every demand we made," he said, "was granted by the company's officials. Our cause was just, and we triumphed."

President Callery, of the Pittsburg Railway Company, admitted the defeat of the company. He refused to make any statement, further than the strikers had carried the points at issue.

HEAT AND POVERTY CAUSE MANY DEATHS

Infant Mortality Has Been Heavy in City of Wash- ington.

(Times Leased Wire.)
Washington, D. C., June 29.—Seventy babies have died in Washington within the past six days as the result of heat and poverty, according to an announcement made to-day by the coroner. Charity workers have tried to alleviate the suffering of the poor and their efforts have probably saved many lives.

The death list is so appalling that many more benevolent persons took up the charity work to-day and distributed ice among the poor mothers whose babies were threatened with death.

The weather bureau to-day predicted a general change to cooler in the weather in the northeastern states, lake region and the northwest.

Relief for Chicago.
Chicago, June 29.—Relief from the oppressive heat which has been responsible for many deaths in the last few days, came to-day with cool breezes from Lake Michigan.

The mercury fell during the night and to-day the weather is not causing nearly so much suffering as heretofore. Relief workers have not given up their efforts in the poor quarters of the city and much good is being done among the people who have not recovered from being stricken by the hot wave.

DEPOSED SULTAN FEARS EXPOSURE

SON OF REFORMER PRESENTS CLAIMS

Midhat Pasha Alleges That His Father Was Killed by Abdul's Orders.

(Times Leased Wire.)
Constantinople, June 29.—The latest claim filed against ex-Sultan Abdul Hamid, many of whose former subjects are demanding indemnity from him for injuries alleged to have been suffered at his hands, has been laid before the government by Ali Halid Mirhat Pasha, son of the unfortunate Midhat Pasha, who framed the Turkish constitution of 33 years ago, and was subsequently killed, the son charges, at Abdul's order.

The deposed ruler is understood to be especially anxious to prevent the revelations which must be made if the young Midhat's case is pushed. His counsel is reported to have made liberal offers for a settlement, but the general impression is that the complainant will prefer revenge to financial compensation, which he is unlikely to get if he refuses Abdul's terms, the ex-sultan having concealed the remnants of his fortune so cleverly that his enemies cannot find them, and that full publicity cannot be avoided.

Midhat the elder, who was exiled after Abdul had suspended the constitution, and died in captivity, unquestionably by poison, which there is small doubt Abdul had administered. His memory is still revered by the Liberal element throughout Turkey, and definite proof that Abdul had him killed will be likely to be attended by extremely serious consequences for the latter.

BODY OF MURDERED SETTLER FOUND

Provincial Constable is on Way to Scene of the Tragedy.

(Times Leased Wire.)
Hazelton, B. C., June 29.—The finding of the lacerated body of a white settler near Clearwater, presumably murdered by disgruntled Indians, has caused great feeling here and in the valley generally. The body, which has not been identified, was found floating in the Skeena river yesterday. It was destitute of clothing, with two bullet wounds, one in the breast and one in the hip. The face was terribly slashed by some sharp weapon and the arms and hands bore evidence of a grim, unequal fight for life.

The Indians are openly defiant and it is asserted that they are to blame for the tragedy. The man is about 35 years old and bears evidence of having been a settler. The remains will be sent to Port Essington and a provincial constable has already left to pick up the slender threads that may lead to the murderer.

WILL VISIT CALIFORNIA

U. S. Secretary of the Navy to Tour West in the Fall.

Washington, D. C., June 29.—It was announced to-day that Secretary of the Navy George L. Von Meyer will visit California on a tour of inspection late this summer. The secretary will spend considerable time at the Mare Island navy yard, where he will watch the workings of the consolidation order that recently went into effect there.

CONSTABLE AND BANDIT KILLED

FATAL FIGHT WITH SUSPECTED ROBBERS

Murderer of Officer Escapes and is Being Pursued by Posses.

(Times Leased Wire.)
Vancouver, B. C., June 29.—Posses are in hot pursuit to-day of the man suspected of being one of the four bandits who held up a C. P. R. railroad train at Ducks, on June 21st, and who, in a revolver duel last night, shot and killed Provincial Constable Decker. The partner of the murderer was killed by Decker, as the latter lay dying from his wound.

The pistol fight occurred at Ashcroft while Constable Decker was endeavoring to arrest two of the four men who are supposed to have been implicated in the train robbery. The constable found the men crossing the Thompson river in a rowboat. Upon landing, he commanded them to surrender. Quick as lightning one of the men drew a revolver and fired. Decker fell, mortally wounded, but raising himself on his elbow, the plucky officer sent a bullet through the heart of the companion of the man who had shot him down. The constable's murderer fled, and is now being closely pursued by posses.

Bloodhounds on the Trail.
Ashcroft, B. C., June 29.—Several armed posses are now scouring the trails with bloodhounds hot in search for the robber who shot and killed Constable Decker last night. Word has just been received from Detective Draper, of Spokane, who has charge of the bloodhounds, that the robber has been traced to some old mining tunnels at Red Gulch about six miles east of Ashcroft and he has asked for more assistance to enable him to capture the murderer.

The dead robber has been identified as the man who ordered the engineer to stop the train at Ducks. Two girls told the police that up to the time the men passed 42 miles above Ashcroft, three men were in the boat; but one got out. Thirty pounds of dynamite was found in the boat, and it is thought the robbers intended holding up a train at Ashcroft to get some cash to take them to the coast.

CONFIRMS CONVICTION OF RAILWAY COMPANY

Northern Pacific Violated Law Limiting the Hours of Trainmen.

(Times Leased Wire.)
Olympia, Wash., June 29.—The State Supreme court has unanimously affirmed the decision of the local superior court, holding the Northern Pacific Railroad Company guilty of violating the 1907 law, limiting to sixteen hours per day the employment of trainmen.

The company admitted the men had been employed 19 continuous hours, but contended the state law did not apply, first, because the men were running between Seattle and Huntington, B. C., engaged in interstate commerce, and second, because congress had passed a sixteen-hour law, which, while not in effect at the time, barred any state law.

KILLED BY CABLE IN LOGGING CAMP

Foreman Struck by Wire Line —Companion Also Sustains Injuries.

(Times Leased Wire.)
Aberdeen, Wash., June 29.—Bert Berry, foreman at Abel's logging camp on Johns river, is dead, and Ross Awrey, a companion, is not expected to recover to-day, as the result of an accident yesterday in which the men were struck by a cable operated by a donkey engine and drawing a log. Berry had stopped to assist Awrey in fastening the line to a log. As the line tightened it caught under the log and then suddenly freed itself. Flying through the air with great force the cable struck Berry, throwing him backward and breaking his neck. Awrey was struck on the head by the line, and the entire upper portion of his scalp was torn off. It is not thought he will recover.

LOSES LIFE IN FIRE IN HOTEL

Porter Returns to Building After Awakening Guests and is Overcome.

(Times Leased Wire.)
Wallace, Idaho, June 29.—In a fire that destroyed the Western hotel yesterday, Oscar Anderson, a cripple who was employed as porter, was burned to death after he had awakened all the guests and they had escaped from the burning building. Anderson returned to the building to secure some of his personal effects, and was overcome by smoke. Several guests saved themselves by jumping from the windows.

ANOTHER SURPLUS IN QUEBEC

Montreal, June 29.—Provincial Treasurer Wier expects another surplus of over half a million for the province for the year ending this month.

CHILD POISONED.

Sixteen-Month-Old Girl Drinks Poison During Absence of Mother.

The Dallas, Ore., June 29.—Martha, the 16-month-old daughter of J. C. Benson, lies dead at the family home here to-day, the victim of fly poison which she drank from a cup yesterday while her mother was in an adjoining room. When Mrs. Benson discovered what had happened she quickly gave the child an antidote and summoned a physician, but the child died before medical assistance arrived. The mother had left the cup of poison near the place where the child had been sleeping, intending to remove it upon her return from another room. While she was gone, however, the baby awoke, reached for the cup and swallowed the contents.

SNAIL HIDES IN "RAT."

Girl Bitten and is Thought to Be Dying.

Mason, Valley, Neb., June 29.—The 17-year-old daughter of Andrew Ingham is thought to be dying as the result of the bite of a small rattlesnake that hid itself in her "rat." The snake took refuge in the artificial coiffure as it lay on the floor, and struck her on the wrist when she picked it up. The family dog attacked the snake and killed it.

MORE OUTRAGES ARE THREATENED

NO CLUE TO IDENTITY OF CHICAGO DYNAMITER

Property Valued at \$125,000 Destroyed by Recent Explosion.

(Times Leased Wire.)
Chicago, June 29.—A postal card, purporting to have been written by the person responsible for Sunday night's dynamite outrage, was printed to-day in a local newspaper. The card threatens that the next explosion will be a "double header."

Some of the local authorities are inclined to believe that the explosion on Sunday night, when property valued at \$125,000 was destroyed, and the entire series of dynamite outrages here recently were the result of an attempt to arouse sentiment against the pool room and handbook gamblers. Others feel sure that it is the outcome of labor troubles.

Other than the post card printed to-day no clue to the identity of the dynamiter has been found.

The police are thoroughly aroused by the threat on the card and announced to-day that they would not quit the trail until the author was found. They are determined to learn whether or not it was the work of a practical joker, and if so to have him punished.

MONUMENT TO SOLDIERS.

Toronto, June 29.—In response to the appeal for funds to complete the \$35,000 national monument to be erected at Toronto to the memory of Canadians who fell in the South African war, a total amount of over \$30,000 has already been subscribed.

DIES SUDDENLY.

Montreal, June 29.—Rev. Williams, D. D., one of the most widely known Methodist ministers in eastern Canada, died suddenly at Chambly Canton, Sunday. He was superannuated some years ago, and previously filled prominent pulpits in the Montreal conference, including St. James' church in this city.

RE-UNION OF ELKS.

Nearly Thousand Delegates From Wash- ington and Oregon Will Attend Gathering in Los Angeles.

Portland, Ore., June 29.—Two special trains carrying 500 delegates from Oregon alone and cars with as many more from Washington will comprise the delegation to the Pacific Northwest to the annual grand lodge re-union of the Elks to be held at Los Angeles early next month.

Business men who had never thought of leaving their offices on any other occasion are to-day busy in various cities of Oregon and Washington putting their affairs in such shape that they may participate in the celebration. Portland Elks, according to present plans, will leave for the south in a special train on July 8th. There will be between 300 and 350 in this delegation. Points in Eastern Washington and Oregon will each try to get enough Elks to fill a sleeping car. The cars will then meet and go in a special train to Los Angeles.

LOSES LIFE IN FIRE IN HOTEL

Porter Returns to Building After Awakening Guests and is Overcome.

(Times Leased Wire.)
Wallace, Idaho, June 29.—In a fire that destroyed the Western hotel yesterday, Oscar Anderson, a cripple who was employed as porter, was burned to death after he had awakened all the guests and they had escaped from the burning building. Anderson returned to the building to secure some of his personal effects, and was overcome by smoke. Several guests saved themselves by jumping from the windows.

The building had been partially destroyed by fire on two previous occasions this year.

LITTLE HOPE OF CAPTURING LING

POLICE BELIEVE HE HAS LEFT THE EAST

Authorities at San Francisco Continue to Watch Out- bound Steamers.

(Times Leased Wire.)
New York, June 29.—The police to-day practically admitted that Leon Ling, slayer of Elsie Sigel, the American missionary, had outwitted them. The officers are still following every possible clue, but practically conceded to-day that they had little hope of capturing the young Chinese.

Whether the apparent surrender of the authorities is a ruse to make Ling careless so that he may be more easily captured is a matter of conjecture to-day in certain quarters. The police, however, declare that they are sincere in their belief that the Chinese has at last left the east, and that if he is run to earth it will be on the Pacific coast.

Activity in San Francisco.
San Francisco, Cal., June 29.—Patrolmen and detectives along the waterfront to-day are making a thorough search of every possible hiding place in an effort to discover the whereabouts of Leon Ling, the Chinese accused of slaying Elsie Sigel.

News from New York that the police are convinced that the Chinese is not in the east has left the capture of the fugitive practically alone in the hands of the local authorities.

It was thought that Ling would try to leave the country on the Chiyu Maru to-day, but search of the vessel failed to reveal him. It is now supposed that his friends, who are supposed to be hiding him, thought the chance of escape on the liner was too slim to be worth the hazard, and advised the fugitive to remain in hiding.

Although it has been thought that Leon might be working among the Alameda clam diggers, detectives who watched the Orientals at work yesterday failed to discover him.

MINERS STRIKE FOR RECOGNITION OF UNION

Greenwood Local of Federa- tion Alleges Discrimination Against Members. Week.

(Special to the Times.)
Grand Forks, B. C., June 29.—The arbitration board which sat at Greenwood lately in regard to the disagreement between the B. C. Copper Company and the Greenwood Miners' Union not having come to a satisfactory agreement, the union has declared a strike, and last night posted the following notice in this city, signed by the strike committee and bearing the seal of the union:

"Strike. Workingmen stay away from Greenwood, Greenwood Miners' Union, No. 22, Western Federation of Miners, has declared a strike against the mines and smelter of the B. C. Copper Co. for the recognition of Greenwood Miners' Union, and for discrimination against its members."

"On June 1st, 1907, the Greenwood Miners' Union and the manager of the B. C. Copper Company adopted a wage scale to be paid the employees of the B. C. Copper Company at their mines and smelter. In May, 1908, the manager of the B. C. Copper Company reduced the wages of his employees, and from that time to the present the union has refused to submit a copy of scale of wages he is paying his employees to the Greenwood Miners' Union, and he has tried to disrupt the Greenwood Miners' Union by blacklisting our active members. The properties of the B. C. Copper Company are closed down at the present time, and we intend to keep them closed down until the management recognizes the Greenwood Miners' Union. At least 90 per cent. of the employees of the B. C. Copper Company, before the close down, were members of Greenwood Miners' Union. The strike committee will notify the public through the press when the strike is declared off."

LAUNCH ON FIRE.

Occupants Leap Into River and Are Rescued by Small Boats.

Brockville, June 29.—While G. W. McLean's new launch Argo, in charge of Fred Gilbert, the builder, Bert Fraser and a party consisting of Mr. and Mrs. G. W. McLean, Master George T. Fulford, Miss Fanny Sheriff, of Brockville, and Miss Vaux, Toronto, were leaving here yesterday for a short cruise, they had a very narrow escape from drowning. When only a short distance up the river, at a point called Swiftwater, the front carburetor became flooded and without a moment's notice the boat was in flames. Nothing was left for the occupants to do but jump overboard. They were all excellent swimmers. Their calls for help were heard and two rowboats came to their assistance, and they were taken to shore in safety. The boat is a total loss, partly covered by insurance.

LEGAL ARGUMENTS HEARD IN CROSS CASE

Liability of Corporations Towards Public Using Ways by Permission.
Further argument was heard by Mr. Justice Martin this forenoon, in the case of Cross vs. E. & N. Railway, on the motion by the defence to dismiss the case without its going to the jury, and the plaintiff's reply to it.
Resuming his argument on the Privy Council finding in Cooke vs. Midland Great Western Railway, of Ireland, Fred. Peters, K. C., continued to read from Lord Macnaghten's judgment. His Lordship commented on the fact that the company had not summoned any of the children who used to play around the turn-table as a warning to trespassers and as a proof that they were desirous of putting an end to the trespass, nor had it kept the turn-table locked so that it could not be played with. If a company allowed its property to be open to all comers it made itself responsible to those who were there by its tacit permission. Lords Atkinson and Collins agreed with his view of the law and held that there was a case of negligence to go to a jury. Lord Collins said that the facts showed there was not merely license to go on the company's property, but an invitation to do so.
Taking up the case of Harrison vs. Northeastern Railway, cited by E. P. Davis, K. C., in which the company was held not liable for an accident which occurred at a point where the public had habitually been crossing the track, Mr. Peters said the law laid down there had been over-ruled. He cited an Irish case in which a man who was doing what the public had constantly been doing, crossing the tracks to purchase a ticket, was killed. One of the defences was that he was a trespasser, but the courts held, up to the House of Lords, that being on the line by tacit leave of the defendants, he must be considered as lawfully there and entitled to have reasonable care exercised towards him by the company. Several other cases were cited to show that even where a man was a bare licensee there was a liability to exercise care towards him. One of these was an American case, where the Delaware, Lackawanna & Western was sued for the loss of a limb by a man who was put off a train, the law laid down being that while he was unlawfully on the train he must not be put off in such a way as to endanger life or limb.
Mr. Davis argued that a right and a permission were very different things, and that the obligations under each were different.

"JACK STRAW."
John Drew Gave Finished Production at Victoria Theatre Last Night.

"Jack Straw," a comedy by W. Somerset Maugham, with John Drew in the title role, presented last night at the Victoria theatre by Charles Frohman, drew a capacity house and car was well classed as one of the best attractions of the season.
The three acts of the comedy contain two scenes which are elaborate to the last detail. The stage of the Victoria theatre, however, could not hold them, and the scenery was set out at the wings so that one-third of it was not visible to the audience. Mr. Drew in the title role had a part-perfected to the utmost, and his support was complete and accomplished. The production was undoubtedly one of the best seen in Victoria.

CAMPAIGN FOR EQUAL SUFFRAGE

American Association to Hold Meetings in Seattle This Week.
(Times Leased Wire.)
Seattle, Wash., June 29.—Delegates from every state in the Union will arrive in Seattle on a special train late to-night to attend the first annual convention of the American Women Suffrage Association, which will begin its sessions on Thursday and continue for one week.
The delegates to the convention have been welcomed with enthusiasm at all points along the route, and at Spokane the reception accorded the delegates was on a large scale. Upon the arrival of the train at the several towns and cities en route to-day, Rev. Anna Howard Shaw, national president, and Mrs. Emma Smith Devoe, state president, will deliver speeches in the cause of equal suffrage, and at each of the several stops the party will be joined by other delegates to the convention.
At Tacoma the train will stop several hours this evening and the delegates will be entertained by the Tacoma suffrage league.
The calling to order of the national convention on Thursday afternoon will be preceded by executive committee meetings to-morrow morning and Thursday morning at Plymouth church.
The convention will be called to order by the president, Rev. Anna Howard Shaw. The order of the first day of the convention will be practically ceremonial. Epitaphic greetings and state welcomes will be exchanged, and on Friday morning the regular routine business will be begun.

CARETAKER SAYS STONES WERE THROWN

Man at Smith's Hill Reservoir Wants to Be Fenced in for Safety.

Smith's Hill is a point which has long been a favorite one for a stroll, affording as it does a splendid view of the country for very many miles in all directions. There is some danger of it being closed to citizens, because the caretaker of the reservoir alleges that people have been throwing stones into it and, worse still, at him.
It was reported to the city council last night by the water commissioner that that morning there was a depth of 4 feet 9-12 inches in the reservoir, equal to 3,500,000 gallons. The high level tank had been full for two weeks and was perfectly water-tight. It was necessary, he wrote, that a high board fence be erected around the entire property at Smith's Hill. At present the place was open to the public, and the caretaker was much annoyed by people climbing all over the bank, throwing stones into the water and at him and generally making themselves obnoxious. The site of the high level tank should also be cleared and a fence built on the east side.
The council thought a fence of close-mesh wire would look much better than a high board fence. An estimate of the cost will be obtained.
A member of the Times staff was at the reservoir for some time on Sunday afternoon. There were a great many citizens visiting it, all of fully as great respectability as the caretaker, and not the slightest sign was seen of any roughness. There should be an iron or wire fencing around the reservoir itself, as is done in other cities, and a notice prohibiting the pollution of the water in any way. The people who visit the hill would respect that rule, notice or not.

JAPANESE LINERS TO BE LAID UP

Four Finest Vessels to Continue Plying Between This Port and Orient.

Two vessels are being taken off the route between this city and the Orient by the Nippon Yusen Kaisha, the Tosa Maru and the Ceylon Maru. These vessels are the freighters of the line and are not quite suited to the trade between the two continents. Further than that, they do not draw any subsidy so have been run at a loss.
The four vessels remaining are finely fitted and are looked upon as among the best passenger craft crossing the ocean.
It is thought that the new line of freighters which have just been put on the run between these waters and the Orient may have had something to do with inducing the company in reaching a decision. As soon as business warrants it is understood that the steamers will again resume the run.

PREPARING CHARGES AGAINST OFFICIAL

Insurance Commissioner's Trial Will Probably Begin on Thursday.

(Times Leased Wire.)
Olympia, Wash., June 29.—The senate and house were in session for 15 minutes this morning, after which an adjournment was taken, the senate until this afternoon and the house until to-morrow.
The investigating committee reported that it would have the impeachment charges ready to be presented to the senate to-morrow. If the committee present its charges Schively's trial will probably begin Thursday morning. In the meantime, every member of the legislature is busily hatching some scheme whereby the impeachment proceedings can be headed off. The administration forces claim to have the better of the situation, and assert that the opposition is now ready to give in, and is only looking for a graceful method of doing so.
Hutchinson, of Spokane, who deserted the administration at the critical moment, is now said to be willing to come back into camp, provided a new investigation committee is appointed, which will probe every state office.
Still others are said to be working on a plan whereby the senate will receive impeachment charges and then adjourn until next October, in order to give Schively an opportunity to prepare his defence.
The session of the senate this afternoon promises to be the scene of legislative fray, over the introduction of a number of new bills.

DISCRIMINATION WAS ALLEGED BY PAINTERS

School Board Awarded Contracts at Meeting Held Last Evening.

The school board held a special meeting last evening to consider the tenders for painting the schools. All the members were present except A. B. McNeill. A complaint was received from the British American Paint Co. and C. H. Tite & Co. complaining that in specifying that Duresco washable water paint should be used in part of the work the board was discriminating against local manufacturers in favor of English made goods.
Trustee Christie supported the contention of the complainants, and was opposed to the insertion in the specifications of the clause referred to.
The board, however, decided that the original specifications should stand.
Tenders were opened for the painting of the two schools, and those of A. E. Lewis were accepted. The amounts were: North Ward school, \$24; Central school, \$94. The other tenders were: Frank Mellor, Central school \$1,006; North Ward school \$50; Melrose Company, Central school \$122; North Ward school \$1,003; J. P. Messerschmidt, Central school \$1,300; North Ward school \$1,080.

WORK OF INCENDIARY.

(Special to the Times.)
Queensland, B. C., June 29.—Fire broke out in the store room at Bullion at one o'clock on Sunday, completely destroying the building and contents. The loss, which is between \$20,000 and \$30,000, is fully covered by insurance. The fire is supposed to have been of incendiary origin.
Mrs. Jenkins has arrived at Seattle from Oakland and will reach Victoria to-morrow.

WOMAN ACCUSED OF KILLING HUSBAND

Infatuation for Farm-hand Al-
leged to Have Been Mo-
tive for Crime.

Mankato, Minn., June 29.—Charged with the murder of her husband, who, it is alleged, stood in the way of her love for Frank Smith, a farm hand, Mrs. H. J. Ledbetter, wife of a wealthy farmer who lived near this city, was arrested yesterday. Smith, who is alleged to have had a hand in the crime, is held under the same charge.

Ledbetter has been missing from his home since May 4th. On Sunday his body was found in a shallow grave on the farm. The head was crushed to a shapeless mass, apparently by a blow from a blunt instrument.

During his examination by the county officials, Smith is alleged to have stated that Mrs. Ledbetter murdered her husband in cold blood because of a blind infatuation for him. He claimed that the attack was made with a heavy axe. After the examination of Mrs. Ledbetter and Smith, the police arrested Wm. Schwant and his wife, the woman's sister. Schwant was charged with helping to remove Ledbetter's body from a temporary grave in a barn to the place where it was found Sunday.

Ledbetter was a resident of this vicinity for years, and was prominent in county affairs. Smith had been in his employ for several months.

CHERRY DAY AT EXPOSITION.

Seattle, Wash., June 29.—Skagit Valley week at the Alaska-Yukon-Pacific exposition was inaugurated yesterday, but will not reach the climax of its celebration until Thursday and Friday, the first of which is Cherry day, while on the second, the Washington state building will be the scene of a rose festival and reception by the ladies of Skagit county. Mrs. Gus Hensler, of Anacortes, chairman of the committee having the entertainment in charge, is a guest at the Washington hotel. Mrs. Hensler and Mrs. Margaret Tentland, of Mount Vernon, Wash., will be the hostesses of the day, assisted by about sixty prominent women of the various cities of Skagit county.

Cherry day, July 1st, will be celebrated by an elaborate parade on the fair grounds.

TREATED IN ABERDEEN INFIRMARY

Mrs. James Alexander, of Pleasant Grove, Uta, U. S. A., writes: "I had asthma in its worst form, and had the best of medical skill obtainable, and was treated also at the Royal Infirmary in the City of Aberdeen. But I obtained little relief. It was difficult to take any exercise without bringing on violent coughing. In 1888 I came to this country, but the Asthma still clung to me, and for the past thirty years I have scarcely been free from it. I read about Catarrhose, it was just what I needed all these years and has given me better health than I have had since a girl. Catarrhose is a perfect cure. I have never had a single attack of Asthma since cured by Catarrhose."

The dollar outfit of Catarrhose is invariably cured; small trial size 50c. All dealers or the Catarrhose Co., Kingston, Ont.

Prepare for Autumnal Catarrh. Now is the time to treat yourself—while the weather conditions are favorable inhale "Catarrhose" four times daily and you will be free from Hay Fever, Autumnal Catarrh, Rose Cold and Throat Weakness.

OREGON LAND CASES.

Portland, Ore., June 29.—Francis J. Henry, the prosecutor of graft, is en route to Portland in an automobile in accordance with a promise he made that as soon as the verdict in the Calhoun trial was reported he would come north to act as advisory counsel for the Portland Daily News in libel suits growing out of charges of land grabbing made by the paper against certain prominent Oregon men.

Since the Daily News published the charges involving Wm. Hanley, the wealthy rancher of Harney county, Oregon, and C. S. Wood, his attorney, of Portland, Hanley has been found guilty by a federal court on the accusations brought against him by the newspaper.

An appeal which he took is pending. It is expected that the libel suits will be brought to trial in September.

IMPRISONMENT BY DEPUTY.

The Isthmian Borough Council has decided to invite the public prosecutor to take action against a taxpayer, who is alleged to have induced another person "by the offer of a pecuniary consideration to represent him, and to serve a term of fourteen days' imprisonment for the non-payment of rates," and if the public prosecutor declines to do so to instruct the council's solicitor to institute a prosecution.

CONSTIPATION

BAND OF CHINESE ATTACK EXPEDITION

One Man is Killed—Viceroy of
San Su Resigns
Office.

Pekin, June 29.—The sudden resignation of the viceroy of Kan Su, made public yesterday revealed the details of an attack by natives on a meteorological party headed by Robert S. Clark, formerly a lieutenant in the American army. One of Clark's companions was killed and two captured by the natives. The dead man's name is A. Sink.

Clark's expedition is under the direction of the British military information bureau.

According to the information just made public, the party was overtaken by a band of natives near Lanchow a week ago yesterday. The natives greatly outnumbered the white men and had them at their mercy.

It is understood that certain accusations were made against the viceroy after the attack was reported to the authorities, and that he resigned rather than face an inquiry.

CHARGED WITH MURDER.

Formal Charge Laid Against Twelve-
Year-Old Boy, Who Killed
His Brother.

Modena, Cal., June 29.—A formal charge of murder was placed against Frank Hopkins, the 12-year-old slayer of his brother Theodore, aged 6 years, yesterday by Probation Officer Pittman.

The child's case will be called Thursday by Superior Judge Fulkner, sitting as a juvenile court.

FIGHT FOR MINE.

Receiver Takes Charge of Rich Prop-
erty in California.

Nevada City, Cal., June 29.—Suit filed by M. Vanderveure, of San Francisco, against E. H. Wilson, owner of the famous 16 to 1 mine at Allegheny, has resulted in the property being placed in the hands of H. C. McPike, a San Francisco attorney, as receiver.

Vanderveure alleges that he was one of the original owners of the 16 to 1 and that he lost his hold on the property through misrepresentation.

Receiver McPike has taken charge of 22 sacks of ore, valued at \$400,000, which is stored in the Citizens bank.

The discovery of the rich pay streak in the 16 to 1 started the Allegheny boom. It is one of the richest properties discovered in years, there being ore worth millions of dollars in sight.

FINDS LONG-LOST SON.

New York, June 29.—To mourn her son for dead for many years and then recognize him as the waiter who had just served her with a meal in a fashionable dining room, is the strange experience of Mrs. Robert Burnham, of Reno, Nev., and the happy reunion is being quietly celebrated by them.

When Mrs. Burnham and her party were seated in the dining room of the Hotel Astor, a handsome young man came up to take their order. Mrs. Burnham gazed at she looked at him, but said nothing to her guests. After the meal had been finished the mother went to the retiring room and asked that the waiter be sent to her. There followed a mutual recognition and a happy reunion.

NEW CHINESE VICEROY.

Tuan Fang Appointed to Succeed Yan
Shi Hsiang in Pechili Province.

Washington, D. C., June 29.—For-
eigners and foreign interests will feel satisfied over the appointment of Tuan Fang to be viceroy of Pechili province, China, to succeed Yan Shi Hsiang, who died on Saturday. Information of the succession reached the Chinese legations here yesterday.

Tuan is, according to advices, a man of advanced ideas and has followed the policy of educating his children both in European and American schools. He has travelled through the United States in the capacity of a high commissioner, looking into the educational systems prevailing in this country, has been favorably impressed with the American methods of doing business and has employed Americans in enterprises in which he is interested in China.

Tuan's appointment to be viceroy of the important province of Pechili is an evidence of the strong position of the pro-republicans in the China foreign office. He is now viceroy at Nanking, and governing the provinces of Kiang Si, Kiang Su and An Hu.

FOURTH ATTEMPT AT SUICIDE SUCCESSFUL

Body of Logger Found Float-
ing in Olympia
Harbor.

Olympia, Wash., June 29.—After four separate attempts, one of which resulted in his arrest for violating the new anti-suicide law, Jack Bailey, a 50-year-old logger, has succeeded in taking his own life. His body was found floating in the harbor here. He was last seen June 19th. Bailey made two unsuccessful attempts at suicide prior to the enactment of the statute providing punishment for one who makes an attempt on his own life. He cut his throat in a third effort to end his life and was arrested for the offence, but was subsequently released without bail. He has been employed in nearby logging camps for years. So far as known he had no relatives.

KIDNEY SUFFERING IN THE SPRING

Backaches and Tired Feelings Tell of
Weak Kidney Action—Prompt Re-
lief by Using DR. CHASE'S
KIDNEY-LIVER PILLS.

No organs of the body are so susceptible to the quickly changing temperature of spring as the kidneys. Sudden cold waves mean chilling of the surface of the body, closing of the pores of the skin and over-crowding of the kidneys at a time when they are already overworked in an effort to free the system of the accumulated poisons of winter.

The tired, draggy feelings you experience and the weakness and pains in the back tell of a poisoned system and defective kidneys.

There is no treatment for kidney disease which will afford you relief so quickly as Dr. Chase's Kidney-Liver Pills, and none which will so certainly cure the most complicated forms of this disease.

There is every reason for this. Dr. Chase's Kidney-Liver Pills awaken the action of the liver and bowels as well as the kidneys and thereby effect a thorough cleansing and regulating of the whole excretory system.

In this combined action Dr. Chase's Kidney-Liver Pills are unique. There are no substitutes or imitations which possess this principle.

Mrs. F. O. Bacon, Baldwin's Mills, Que., writes: "I was very sick last spring. The doctors said I must go to the hospital for an operation, but I didn't want to. My liver and kidneys did not act and I suffered terribly. I then began using Dr. Chase's Kidney-Liver Pills, and nothing else, and am now fully cured and doing my own work for a family of seven."

Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cts. a box, at all dealers or Edmanston, Bates & Co., Toronto.

WESTERN CROPS.

Favorable Weather Conditions for
Grain—Increase in Acreage.

Winnipeg, June 29.—The Ogilvie Flour Mills Company's weekly report shows a very satisfactory position existing with respect to the growing crop. During the past week copious rains have fallen, which, together with other favorable weather conditions, have placed the crop in a most excellent condition. Generally speaking, summer fallow fields are very heavy, spring ploughing and stubble are a very good average, and all is looking out well. The earlier sown wheat is starting to come into the shoot blade.

The acreage under wheat in Manitoba, Saskatchewan and Alberta will likely be in a most excellent condition. 250,000 acres, oats 2,750,000 acres; barley 1,600,000 acres; flax 250,000 acres, making a very substantial increase in the acreage over last year.

Lever Brothers, Toronto, will send you free a cake of their famous Plantol toilet soap, if you mention this paper.

A POSSIBLE SUCCESSOR TO GLADSTONE.

David Lloyd-George, who has succeeded Mr. Asquith as Chancellor of the Exchequer in the British government, according to popular acceptance, may in time prove that he is worthy to wear the shoes of that great popular tribune, the late William Ewart Gladstone. Mr. Lloyd-George is not only a finished speaker, inspiring and convincing, endowed with the fiery temperament of the Celt, but he possesses an advantage which Mr. Gladstone lacked, the "saving grace of humor." His reputation is already so well established that when he is reported "on his feet" the House is always crowded, the members hanging upon every word, and vigorously applauding every thrust and sally at the expense of his opponents, and every point made in favor of the policy of a government which has made the first determined attempt at social reform and equalization of conditions. The young Chancellor has yet, it is true, to bow his acknowledgments to the mature judgment of the times; but he has achieved the distinction of delivering the only epoch-making budget speech in a generation. He has led the House and the country far from the beaten paths of finance. He has made a place for himself in the history of the greatest Empire of all times. He has compelled the newspapers, those modern arbiters of destiny, to take notice of his personality and achievements. That is something which cannot be said of many of his colleagues, not even of his self-contained and calm-demeanored leader, the Prime Minister.

The Westminster Gazette, says a writer in the Toronto Globe, gives a brief but interesting description of the Chancellor's speech in defence of his budget. He "not only met attacks with hard blows, but forced the fighting all the way, and allowed none of his opponents to escape. After delivering a frontal attack on the Opposition he would swing round to chastise a single opponent. At one moment his rich tenor voice would ring with indignation, then he would set the whole House rippling with laughter over a merry jest at the expense of his critics, and later, in soft emotional tones, he held his hearers in hushed sympathy as he pleaded for the poor, on whose behalf he wanted money." This budget debate has made it quite certain that when Mr. Asquith found himself constrained to give up, on his assumption of the office of Prime Minister, the Chancellorship of the Exchequer, he made no mistake in placing his mantle on the shoulders of Mr. Lloyd-George.

LET BRITONS BEWARE.

The United States Senate has been engaged for seventy days in discussing the schedules of the tariff. Now it is going to take up an amendment to the federal constitution which will clear

the way for the imposition of an income tax. Our readers will remember that the Supreme Court decided a few years ago that it was not within the powers of the republic to tax incomes. We do not remember exactly how many days the Representatives in the other branch of Congress devoted to the tariff schedules, but it was a good many, the whole going to prove the cumbersome nature of the system of raising revenue by the imposition of duties on everything in daily use by the people, not to speak of hundreds of things the great majority of the people hardly know as having an existence. The demands of manufacturers, dealers and growers of various commodities for protection against the cheap products of other countries add to the complications and confusion, so that it is no wonder the legislators are reduced to a dreadful state of economic perplexity. We suppose, however, that the statesmen at Washington will manage to complete their business before summer passes into winter, and that before Christmas the country will be relieved from the condition of doubt and perplexity which is said to be the only thing standing in the way of a return to normal commercial and industrial activity.

The Conservative party of Great Britain, which is reported to be strongly in favor of "broadening the basis of taxation" as a means of raising more revenue and raising it more equitably, ought to take note of what has been going on at Washington for the past three months. The British Parliament practically sits all the year round at present, with short intervals for shooting and other pleasures and recreations. Even at that it never catches up with its business. Many most important measures have to be shelved until a more convenient season. What would the state of that legislative body be if in addition to its ordinary work it were called upon to deal with a complicated and elaborate system of duties such as Congress has upon its hand when it undertakes to "revise the tariff downwards?" Such a spectacle as is witnessed in the United States houses at intervals when the members are keyed up to the point of taking the wild tariff bill by the horns should constitute a warning to all nations against the inconveniences, if not the dangers, of the protectionist system.

THE KAISER AND HIS ADVISERS.

The reported intention of Chancellor von Bulow to resign his post recalls Punch's celebrated cartoon, "Dropping the Pilot." The Kaiser has an unfortunate faculty for getting rid of his strong men at the wrong time. Von Bulow proved himself a worthy successor to Bismarck; but it may not prove an easy matter to select a suitable successor to von Bulow. It seems to be a matter of considerable difficulty to reconcile the Kaiser's conception of his position and the popular idea of constitutional, if not precisely responsible, government. If the German cabinet were directly responsible to the people for its acts and its policy instead of answerable to and chosen by the sovereign, the ship of state might sail along more smoothly. Under the constitutional system at present prevailing it is possible for a strong, stubborn and unyielding ruler such as the present Kaiser to impose his will upon the government, notwithstanding that that will may not be acceptable to a Reichstag elected by the people and responsible to the people. Such an anomalous state of affairs unquestionably is accountable for the decision of von Bulow to lay down the heavy burden of state affairs. The Chancellor occupies a position equivalent to that of Prime Minister under the British system, but is practically a buffer between the sovereign and the elected representatives of the people. The resignation first of von Bismarck, then of von Bulow, accentuates the anomalies of the German system. The Kaiser will resist to the limit any amendments curtailing the powers of the Crown. But the time will come when the German people, among the leaders of the world's thought and action, will demand a change. If the sovereign be wise, whether that sovereign be Wilhelm or his successor, he will yield with grace to the popular demands. It is impossible in these days of progress to stem the tide of political evolution.

The city of Toronto, after an elaborate series of experiments, has decided to pour oil upon all its macadam roadways. The process, it is estimated, will prove cheaper in the end than constant watering, besides adding to the endurance of the pavement. There may be a useful hint in this announcement for the city council of Victoria.

The Ottawa Free Press properly points out that the blame for the cessation of the steamship service between Canada and New Zealand must be placed where it belongs. The Canadian government was anxious for a renewal of the subsidy upon the old terms, but the New Zealanders would not agree to this; and Canada was asked to agree to the steamers calling at San Francisco, which, of course, was impossible. It would be a fine stroke

of statesmanship for the Canadian government to subsidize a line of steamers to carry business for American concerns. It is wonder the New Zealand government did not immediately see the absurdity of such a proposal.

Hamilton Times: When Lloyd-George introduced his budget proposals to compel the rich to pay a proper share of the national expenditure the Unionist papers asserted that the result would be to drive capital out of Britain to foreign countries, and they cited the United States as a country where incomes were not taxed. President Taft proposes to change that condition, so it begins to look as if the unfortunate English millionaire must "cough up" and look pleasant. There is no escape from the tax-gatherer for the wealthy. The income tax in Germany is almost twice as high as in England.

There appears to be something rotten in the police department of Winnipeg. According to an acknowledged authority, about a score of murders have been committed in the prairie capital without a single homicide being brought to book for his crime. The criminal classes are evidently increasing out of all proportion to the law-abiding class of the city. Such a condition of affairs is not in consonance with the reputation of the Dominion.

The ladies of Victoria have formed a Canadian Club, the first organization of its kind in the country, unless there be one in Montreal. The national spirit is waxing strong. But we wonder whether any mere men will be admitted to the lectures and re-unions of this distinctive feminine organization.

The American government is still struggling with the question "What is whiskey?" The officials of the department must be trying to throw dust in the eyes of the people.

SEVENTEEN DIE FROM
HEAT AT ST. LOUIS

No Sign of Relief—Much Suffering Also Reported From Oklahoma.

(Times Leased Wire.)
St. Louis, Mo., June 28.—There have been 17 deaths in the city hospital in the past three days as a result of the intense heat, which shows no signs of abatement. The doctors at the hospital say the weather lessens vitality of their patients.

Scores of prostrations were reported to-day and many more deaths are expected unless there is an immediate change in the weather.

One Hundred in Shade.
Tulsa, Okla., June 28.—The thermometer registered 100 in the shade here to-day and reports from various parts of the state tell of similar conditions. There has been but one prostration here, but the suffering is intense.

INCOME TAX.

President Taft's Proposal is Now Being Considered by the U. S. Senate.

Washington, D.C., June 28.—Senator Brown, of Nebraska, to-day failed in an attempt to obtain precedence in the senate for his income tax amendment. The matter was dropped after a short debate.

Senator Aldrich then gave notice that he would oppose the consideration of any amendments to the tariff schedules. He explained that of course the members might offer amendments, but that he would move that they be tabled.

Senator Owen, of Oklahoma, protested against this course. Following the argument between Owen and Aldrich, the tariff amendment which provides a tax of ten cents a pound on tea, was considered. This amendment was presented yesterday, but consideration of it was postponed until to-day, and Aldrich could make no objection. The amendment was defeated by 18 to 83. Aldrich announced that all tariff schedules had been disposed of and the income tax was called up for consideration.

DOMINION DAY.

Large Number of British Columbians Expected to Visit A-Y-P Exposition on Thursday.

Seattle, Wash., June 28.—Dominion Day at the Alaska-Yukon-Pacific exposition on Thursday, July 1st, will bring several big excursions from across the Canadian line. The Vancouver Tourist Association and the Vancouver Island Development League are active in arranging trips from Vancouver, Victoria, Nanaimo and Ladysmith. To the fair, it is estimated, will be made to land them in this country, the six companies of the Duke of Connaught's Own Rifles will come from Vancouver, accompanied by their band. The Vancouver welcome arch on Third avenue and Marion street will be dedicated on that day with appropriate ceremonies. Mayor Douglas, of Vancouver, will be among the prominent visitors.

ROSE SHOW IS
OPENED TO-DAYMAGNIFICENT DISPLAY
AT ASSEMBLY RINK

Profusion of Flowers on Exhibit
—Programme of Music
To-night.

The annual rose show was opened most auspiciously this afternoon. The scene this morning was a very busy one, and Secretary Bland had a great many entries to make at the last moment, while the decorative committee had likewise no idle time on their hands. By 2 o'clock, however, the rose show was ready for the inspection of the public.

Roses of every kind and grade and color are shown in great quantities, and exclamations are heard on every side as one visitor after another finds an especially beautiful sample of an old favorite or spies one new and rare. Apart from the roses, many other plants lent for decorative purposes have done much to make the affair a success. Mrs. Croft's magnificent collection of rare ferns and palms attract one at either side of the entrance. Mrs. Pemberton's splendid begonias, too, lent from the conservatories of "Glenora," come in for a great deal of admiration, while in the centre of the large table, Mrs. F. S. Barnard's large Australian tree fern, banked with dark crimson peonies, comes in for a great deal of attention.

Mr. F. W. Jones has contributed a quantity of lovely pink peonies for decorative purposes. Mrs. Matson, Mrs. Croft and others have sent quantities of roses and peonies, which have not been entered in competition but placed in large bowls and used to heighten the general effect.

The gallery and windows and tables have all been draped in soft green bunting, which harmonizes well with the gay tints of the floral display.

The decorative committee, which includes Mrs. Croft, Mrs. F. S. Barnard, Mrs. Hermann Robertson, Mrs. Beaven and a number of others, have spared no pains to transform the hall into a bit of fairyland. Mr. Fred Jones, too, has been most busy of all, and has helped the ladies in every way possible, even to the placing of his motor at their disposal.

Among those contributing private collections for prize competition are Mrs. Sherburn, Mrs. H. R. Beaven, Mrs. Percy Wollaston, Jr., Mrs. Martin, Jas. A. Bland and a number of others.

The trade exhibits, by the Flewin and Lansdowne greenhouses are exceptionally good.

In the Lansdowne exhibit some splendid specimens of hardy perennials, of which that firm makes a specialty, are shown. They have a very fine collection of English, German and Spanish iris. The English and German blossoms vary from very dark blue through all the paler shades to white, while in the Spanish specimens yellow and bronze tints prevail. In peonies and delphiniums their showing is likewise very fine, and a number of new specimens are being much admired. In Campanula plants they are showing double blue and white as well as single, and their pyrethums, of which they show single and double specimens in pink and white, are likewise good.

In roses, they are exhibiting only fifty specimens, although their catalogues show over two hundred varieties. A few especially choice ones are: A pure white, large double rose, the Frau Karl Dausch; a very fine pink, the Gustav Grunwald; a dark red, the Alfred Colomb; a very fine double yellow, Le Progrès; a coppery red, the William Robinson; a pale lemon yellow double rose, with softly tinted pink double outer leaves, is the Marie Von Holt.

The Flewin exhibit has specialized on a splendid collection of delphiniums, which are very showy and attractive with their long stalks and have unusually large perfectly developed bloom. Three fine specimens of the black calla lily are attracting considerable attention, and their color vine which is shown in a great variety of tints would be hard to equal anywhere. They have also a large showing of Iceland poppies in three distinct colors. Their best exhibit, outside of the roses, is perhaps a double white pyrethrum, which was christened to-day, Flewin's Giant. This plant far surpasses anything of the sort ever shown before, and is worthy of very special notice by the public.

In roses the collection is likewise very large and attractive. A glorious bit of color is a single rich red rose, the Chas. J. Graham; the Betty, a very fine salmon pink, and the Bouquet d'or, a pale yellow climber. A wonderful bit of color is a small specimen of wild rose, an Australian copper shades and a rustic basket of Pensance sweet briar is very much admired.

The flower show will be open this evening, when a good musical programme will be rendered. Miss Angus has charge of the refreshments at the farther end of the hall, which is divided from the other apartment by glass screens. She is assisted by a gay bevy of young ladies, and no one attending the rose show will be disappointed in any particular.

MOTOR BOAT CONTEST.

Start of Race From Vancouver to Seattle.

Vancouver, B. C., June 28.—The 225 mile power boat race from English bay, Vancouver, to Seattle with calls at Port Angeles and Tacoma, promoted by the Pacific Coast International Power Boat Association, started at 9:47 this morning. Handicapped according to measurements and the power of the engines, the power boats moved off at intervals. There was a fairly strong wind from the southwest at the opening of the cruise and this promised heavy weather out in the straits and an hour later the wind had further strengthened and whirled around to northwest. With conditions favorable the first boat is expected to finish about 8 or 9 o'clock to-morrow.

OUR JULY SALE STARTS FRIDAY, THE SECOND. A TIME WHEN DOLLARS DO
DOUBLE SERVICE. OUR JULY SALE STARTS FRIDAY, THE SECOND.

Our July Sale
Announcement.

WE beg to announce that on Friday next, July 2nd, we are launching forth the greatest bargain and money-saving event of the year or, in fact, in the history of the store—our July Sale. This sale includes practically everything you need in Ladies' Wearing Apparel, Staple Articles, Silks, Dress Goods, Hosiery, Small Wares, Boots and Shoes, Men's Clothing, Men's Furnishings, etc.—all new, fresh, crisp merchandise. Never before have we made such astounding reductions, and have planned to make this sale a record-breaker. Many of the articles are marked at half and in some instances less than half their regular value. It therefore behooves all those wishing to purchase good, seasonable merchandise at great savings to watch our daily announcements closely, for not only will this sale make a grand sweep of the present stock, but it will be augmented from time to time with many new items of special interest. Full particulars will appear Wednesday night and Thursday morning, and we suggest that you keep a copy of this paper, as you will find it a great aid to you in doing your shopping. There shall be no disappointments, as we are prepared to cope with the vast volume of business that will be done in an expeditious and satisfactory way. If you are out for making a substantial saving, do not overlook this opportunity, but be sure to watch the papers, and, above all, our windows. You will find by doing this it will be of material benefit to you. Remember the opening day, Friday, July 2nd, and be at the doors sharp at 8:30. A dollar saved is a dollar earned. Come in, see for yourself, and buy.

MAORI GRACE DARLING.

The Maori Grace Darling, Mrs. Julia Martin, nee Hurlia Matenga, has just died, says the Melbourne Argus, near Nelson, New Zealand. Fifty years ago, when she was a young girl of twenty, living with her people on the Croisilles, the ship Delaware, helpless and disabled, was wrecked on the beach near her home. There were twenty-three people on board, and they would probably all have been drowned, as there was no means of reaching the shore except by swimming. Hurlia Matenga, who was a very powerful swimmer, took a line, swam through the surf to the ship, and passed it to those on board. Every soul was saved, and the bravery of the Maori girl was rewarded by the settlers of Nelson, who presented her with a gold watch.

Those Who Desire CLARET

Sauterne or Burgundy at their best should select the unique brand of G. Preller & Co. Preller's Claret is the elixir of our forebears—perfectly ripened, thoroughly aged, a dinner wine that cannot fail to please the most critical. Preller's Sauterne is a true test of the vintner's skill and of his honesty—delicate yet full flavored. Preller's Burgundy is as rich as port wine and as delicate as Champagne—the very essence of the perfect grape.

Your dealer can supply you with these unmatched wines.

—A meeting of the executive of the Vancouver Island Development League is being held in the board of trade rooms this afternoon. A considerable amount of routine business is to be transacted.

—July 1st is Dominion Day at the

Seattle exposition, now in progress in that city. The Vancouver Island Development League has addressed letters to the secretaries of the other branches of the league on the island to that effect. It is hoped that a large number will attend the fair on that day.

—Those intending to subscribe for stock in La Prosperidad Colony Association, Mexico, should do so before the end of this month as stock advances five dollars per share July 1st. Mr. Drader, 1444 Pembroke street, this city, in general agent. If the people of Victoria knew the advantages of this colony, instead of 44 members in this city this month there would be several hundred. Ten dollars a month secures a beautiful home and an interest in a very profitable business.

—Arrangements for the lawn social under the auspices of Centennial adult Bible class to be held this evening at the residence of W. H. Parsons, 551 Burnside road, are complete. The gardens will be well decorated and lighted. A short programme has been provided. Sel's orchestra will be in attendance throughout the entire evening. These features, together with the strawberries, ice cream and other seasonable refreshments, assure those attending an enjoyable evening. Tickets have been selling well and a large attendance is anticipated.

—The Woman's Auxiliary of the Y. M. C. A. held their last meeting for the season yesterday afternoon in the Y. M. C. A. parlour, with the president, Mrs. Gleason, in the chair. Mrs. Dr. Clemence was elected vice-president and considerable business was disposed of. A communication was read from the agent of Miss E. Pauline Johnson, proposing to give a concert under the Y. M. C. A. auspices in the latter part of August. The pros and cons were discussed, but the point was not definitely settled, it being the opinion of the meeting that August was too early in the season to hold a successful concert. Arrangements will probably be made with Miss Johnson to come later. The annual picnic of the Woman's Auxiliary will be held the first Wednesday in August, particulars of which will be given later.

C. A. auspices in the latter part of August. The pros and cons were discussed, but the point was not definitely settled, it being the opinion of the meeting that August was too early in the season to hold a successful concert. Arrangements will probably be made with Miss Johnson to come later. The annual picnic of the Woman's Auxiliary will be held the first Wednesday in August, particulars of which will be given later.

—The Woman's Auxiliary of the Y. M. C. A. held their last meeting for the season yesterday afternoon in the Y. M. C. A. parlour, with the president, Mrs. Gleason, in the chair. Mrs. Dr. Clemence was elected vice-president and considerable business was disposed of. A communication was read from the agent of Miss E. Pauline Johnson, proposing to give a concert under the Y. M. C. A. auspices in the latter part of August. The pros and cons were discussed, but the point was not definitely settled, it being the opinion of the meeting that August was too early in the season to hold a successful concert. Arrangements will probably be made with Miss Johnson to come later. The annual picnic of the Woman's Auxiliary will be held the first Wednesday in August, particulars of which will be given later.

TWO LONG SHOTS IN FIRST MONEY

FOREST ROSE AND PRINCE BRUTUS WIN

Good Monday Crowd Attends Meeting at the Willows.

Those who were looking for systems at the Willows yesterday can now turn up their programmes and notice that in the first five races winners were even numbers and second horses were odd numbers. Also that the day commenced with the winners being the bottom horses on the programme in the first two races. It will be found that the second race has often followed the first by the same number, and at the third race there has been a change up to number two. Others who like numbers will find that a majority of number fours have been in the money. June 15th and 17th there were five each day.

Yesterday's big wins were Forest Rose, 10 to 1, and Prince Brutus, 15 to 1. Both were surprises and carried little money besides that of the stables. Forest Rose won the first race over six furlongs, and the last race of the day, a seven furlong event, went to Prince Brutus by several lengths. Calla turned in another nice win at 6 to 1 in the second race, and backers of the three of which there were some made a good haul from the men who are supposed to own all the money, but in reality only act as trustees—sometimes.

The perfect race weather brought out a big Monday crowd to the track, and the running of the horses was equal to the best of the meeting. A nose and nose finish between Forest Rose and Bay Garter, both long and despised prices except by the few, opened the card, and the first money was awarded to Forest Rose, although the finish was the closest seen at the Willows. The second horse chased the winner up the stretch and pushed her nose just ahead in the next to last stride. Forest Rose, however, had another stride coming, which landed the big money to W. M. Cain in time, one second behind the track record. Mr. Bishop slipped into an unobserved third with all the decorum that a horse taking a handle to the distance has the only favorite that won yesterday, and there was no doubt about the superiority of the gelding. On Parole was winner of the five furlong last Thursday with 107, and yesterday carried only one pound more.

Evelyn K. and Listowel fought out the places behind On Parole.

Calla was a winner all the way in the second race, and from the word go took the easy inside position and kept a couple of lengths in front, which was increased to three at the finish. Korosilany and Silver Wedding were the place takers, the same length being between second and third as between the two front horses.

Miss Mazzoni, Miller's Daughter and Sainesaw were in the money in the fourth event, over a mile and seventy yards, and had it been a mile and seventy-five yards Miss Mazzoni would have occupied second position. The Daugher is much improved and ran a steady race with pace to burn at the finish. The winner took the lead away from her at the three-quarter post and managed to last out the finish by a head. Sainesaw was a three-lengths third, and just held the position by a nose from Redwood, second.

Servicence, Banposal and Sink Spring were the three that received most of the play in the fourth race, and they went to the post the three top ones. The finish was in the order given. For the first time Beautiful and Best and Footloose were in the running, but were out of it at the half-mile post for good. The many horses there took possession of the running and rode out the finish alone.

With Sophomore left at the post after being ready to get away four times, when the horses were called back owing to a broken barrier, a horse that had received a lot of play was out of the race for good, and a surprise in Prince Brutus, 15-1, tore up the earth and galloped ahead of his fellow, brought My Pal up at the finish, and came within a length of the winner at the post. My Pal's run was made after entering the straight, where he beat Blue Heron out of what looked like a certain second by a head.

Calla equalled the record time of Belle of Iroquois for the six furlongs, otherwise the times for all the races were slow.

The horses finished in the following order:

WORKING TO KEEP

HORSE RACES CLEAN

Why Canadian Association Was Formed as Governing Authority.

"The maxim of strength in union is of universal application, but nowhere does it apply with greater force than in the government of the turf," said a prominent official of the Montreal Jockey Club, to the Montreal Star, in a discussion of the formation of the Canadian Racing Association, as the governing authority. In this body are included the following named organizations, in their order of their date of establishment: The Ontario Jockey Club, racing at Woodbine Park, Toronto; the Hamilton Jockey Club, the Windsor Fair Grounds and Driving Park Association; the Niagara Racing Association, racing at Port Erie; the Montreal Jockey Club, racing at Blue Bonnets. The amount of

money distributed in stakes and purses by these clubs in a season reaches not far from half a million of dollars, and it is their policy to steadily increase the offerings to the owners of thoroughbred horses.

"Until last year these clubs had conducted their affairs on an entirely independent basis. The increasing importance and extent of racing in Canada naturally brought about the union of action which is systematized in the Canadian Racing Associations, the formation of which was hailed with the sincerest congratulations from all who have the well-being of the sport at heart. Jos. E. Seagram, the noted breeder, who maintains a great establishment at Waterloo, Ont., which con- stitutes him represented in the Dominion parliament for many years, is the chairman of the C.R.A., as he is of the Ontario Jockey Club. Sir H. Montagu Allan, who is the head and front of the sport in this province, and president of the Montreal Jockey Club, is the vice-chairman, and W. P. Fraser, of Toronto, is the present secretary and treasurer.

"The object of the new governing body is thus stated in its book of rules and regulations: 'For the improvement of thoroughbred horses, and for the purpose of elevating racing to a higher plane within the jurisdiction of this organization.'

"The distinction has been already made plain in the public mind between the very desirable ends of the Cana-

dian Racing Associations, and the illegitimate imitation of a noble sport outside of the recognition of the central body. Such a meeting as that which took place at a half-mile track in Toronto, has no more resemblance in the true sport of racing than a many-colored yellow cur to a noble St. Bernard, and the action of the cabinet in the matter meets with the entire support of all good citizens. It is just such gatherings, which are simply the proceedings of rapacious promoters for gambling purposes that the central body is foremost in condemning and suppressing. All participants in unrecognized meetings are debarred from competition at meetings carried out under the sanction of the C.R.A., and no licensee to train or ride horses are granted to trainers or jockeys who have allied themselves with the element that would bring a great sport, a great industry, and a great recreation into disrepute.

"The present status of the turf in Canada is all that its best friends could desire. Never were so many good men connected with it; never were they so determined that it shall demand public approval; never has it had so strong a hold on public favor, and that position has only been achieved by the merit of the sport offered, and by the justifiable popular confidence in those who have its affairs in charge."

Of Winnipeg, Chicago and Minneapolis

NOW CLOSING OUT The Western Clothing House

533 Foot of Johnson Street

In Full Swing. A Big Money-Saving Event. We Now Do a Month's Business in a Day. A Phenomenal Success!

THE ENTHUSIASM that this great bargain sale is creating is the talk of every man, woman and child in the country. Never before have the people witnessed such big crowds attending a sacrifice sale in this part of British Columbia. It is a well known fact when this reliable firm informs you they are going to sacrifice their entire line of spring and summer merchandise they always fulfil all promises they make. Truthful advertising, explaining big values, creates a demand for merchandise in this present century. We regret very much that we were not able to wait upon the vast crowds of people the opening day of this great money saving event, although we secured all the available extra clerks that we could employ, and we sincerely hope to be able to handle the large number of people who will attend this sale daily in a satisfactory manner the remaining days of the sale.

Sensational bargains we are offering here of new, up-to-date merchandise. Big crowds of people from all parts of the country visit this great bargain sale and all will attest the genuine bargains they have received. The by-word seems to be from each purchaser, "What Snaps You Can Get Here. This is a Sale of Sales." Good, logical, bold facts told in plain figures that do not lie. Thousands of dollars worth of high grade spring and summer merchandise that is worth its original price, but must be closed out at a big sacrifice.

Most of our stock is high grade spring and summer merchandise. We bought too heavily this season; the manufacturers refused to cancel the orders. They have arrived, overloading our store with big bargains. We must sell the goods. To effect this, we have cut the prices unmercifully regardless of loss. This sale will prove a triumphant business achievement which will reduce cost to an absolute minimum. Beautiful assortment brimful of latest styles and effects. Our store leads as the best and most economical mercantile centre of high class merchandise emphasized in every item in all departments of our well stocked store. This will be the greatest slaughter of merchandise on record. The extremely low prices will astound the public in general.

WOMAN'S CANADIAN CLUB LAUNCHED

A. E. McPhillips Spoke on Re- sponsibilities in Fostering Patriotism.

The meeting for the inauguration of the Woman's Canadian Club, held at the Empress hotel yesterday afternoon, was a most enthusiastic one. Mrs. Fitzgibbon was appointed to the chair, and after a few introductory remarks, called on Mr. McPhillips, K.C., M.P.P., president of the local Canadian club, to address the meeting. Mr. McPhillips said:

"It is a pleasing task that I have to perform to-day—although I admit that I enter upon it with considerable hesitation—that is some slight reference to the history and aims of the Canadian clubs. Owing to my position as president of the Canadian Club of Victoria you have honored me to address you some few words in the direction of inaugurating and stimulating interest in the establishment of a Ladies' Canadian Club. I trust that the move now made will be productive of an active and helpful organization in the cause of Canadian patriotism—the fostering of love for the Empire and the dissemination of knowledge of Canada's great natural resources—Canadian history and the cultivation of the arts and sciences. Shortly, it may be said that the idea of the Canadian Clubs—organized in the city of Hamilton about 17 years ago, and there has been steady growth ever since—so far the activity has been mainly centered around the hearing of addresses from prominent people of the world generally, and in particular British and Canadian statesmen, jurists and men of letters. Already has been felt the better and broader knowledge of Imperial and Canadian affairs—also acquaintance with conditions existing in and the advancement of other nations.

"The women of Canada, as well as the women of all nations, have a noble duty to perform—and may I be permitted to say it—the women of Canada have not been laggards in the race. This Dominion would not have been possible had not the men of Canada

had their courage sustained by the love and co-operation of the fair daughters of Canada—let our memories carry us back to earlier years—let us recall the pages of history and we will be impressed with the grand work of the women of Canada—and those who came from the Mother Country and sunny France—especially those noble women who first left home and country, its comforts and allurements, to help fathers, husbands and brothers to new homes in the forests of Canada and undergo the privations of early settlement and border life. If Canada has been made great we must thank the women of Canada, because the men of Canada were sustained by the fortitude of the women of Canada—and the result has been a God-fearing race of high moral tone—therefore I welcome this organization and speak for the members of the Canadian Club of Victoria—and I will venture to say for the citizens of Victoria—and wish all access to the club about to be formed.

"If I might be permitted to instance some ways—that would be helpful in our common country's cause, I would say—study Canadian affairs and inspire in the minds of the young men as well as the young women of Canada a patriotic interest in national concerns. That you have a great mission to perform I feel satisfied—not that great work has not been done in the past—were it not for true womanhood from whence would come the attributes of true manhood?

"Now that special attention is being given to the defenses of the Empire, whilst we may deplore war—yet preparation for war is the greatest of all guarantees for peace—therefore, to the women of Canada—there is at hand an opportunity of great things which to them is easy of accomplishment—that is, lend your countenance to—yes, smile upon the sailor and soldier—the citizen sailor and soldier as well as those whose whole profession is the service of King and country. I do not hesitate to say that a great deal of the self-sacrifice of the citizen soldiery of Canada has been owing to the popularity—shall I say the fashionableness—of belonging to the militia of Canada? Those splendid city regiments of Canada—and no less important and valuable rural regiments of Canada—have been helped and assisted—in fact, maintained largely in their efficiency because of the interest taken in them by the women of Canada—and I do not overlook the soldiers and sailors who are in our midst. The ladies have much that they can do and one of the greatest works ready to their hands to-day is to foster a sound national sentiment, and mothers, wives, sisters and sweethearts look with loving eyes on those who give of their time and money, service in the country's cause, ready to do battle for the maintenance

of that Empire, the greatest the world has ever seen."

Mrs. Fitzgibbon spoke of her familiarity with and residence in most of the provinces of the Dominion, emphasizing the thought that it was the nationalism of the different provinces which made her feel at home wherever her place of residence might be. Anything which furthered the binding together of the different nationalities represented in the Dominion was to be commended.

Mrs. Andrews moved, and Mrs. Hasell seconded, that a Woman's Canadian Club should be formed. The motion was carried unanimously, and the election of officers took place with the results recorded in yesterday's Times. The constitution of the Men's Canadian Club was read by Mrs. Fitzgibbon, and on the motion of Mrs. Gordon Grant, adopted, with the amendment of changing the date of the annual meeting from February to October, and the substitution of her and she, for the words he and his.

A vote of thanks was tendered Mrs. Humble for his courtesy in giving the meeting the use of the Empress drawing room, and also to Mr. McPhillips for his able address. A very hearty vote of thanks was also tendered Mrs. Fitzgibbon for so ably filling the chair.

The following members were received: Mrs. Harrison, Miss B. Harrison, Mrs. Tuck, Miss Tuck, Mrs. Pearce, Mrs. Workman, Mrs. D. R. Ker, Mrs. C. F. Todd, Miss Duff, Mrs. J. Hamilton Gray, Mrs. F. L. Among the crew of the new Orient liner Orsova, which dropped anchor in the Thames recently, was the "match-making" barber, who during sixty-seven trips to Australia on liners has supplied rings to newly-engaged passengers. He says a boiler-fitter will make for a plain gold ring out of an ordinary sovereign as fine as any ring which can be bought at a jeweller's shop. Whirlpools are really circular currents of water produced by winds or other currents. They are very seldom found on a large scale. The two celebrated whirlpools of the world are the Maelstrom and Seylla-and-Charybdis.

DELEGATION WILL MEET GOVERNMENT

Committee of Natural History Society to Ask for Better Protection of Sea Fowl.

A long discussion took place last night at the regular fortnightly meeting of the Natural History Society, held in their rooms on Yates street, as to the best means of securing protection for the seabirds which nest on the rocky islets about the coast. There was a good attendance of members, who all showed that they were anxious to place their position before the government without at the same time seeming to be too officious in the matter. Finally a resolution was passed asking the government to declare the nesting sites of the sea-fowl to be bird preserves, and to take such other steps as might seem wise in order to protect the eggs. A delegation was appointed to seek an interview with the members of the government and to lay the views of the society before them.

During the course of the discussion it was shown that it must be only a matter of a few years before the gulls and other sea-fowl would cease to nest on this coast if the present depredations were continued. While the Indians took the first sets of eggs that were laid in June, it was the white people who did the subsequent robbing, large numbers of the eggs being taken for commercial purposes. There were present several who were eyewitnesses to the robberies, and their evidence could not be disputed.

A number of specimens of flowers were examined before the meeting adjourned.

FAVOR AGREEMENT.

Francis J. Heney is Now on His Way to Portland.

Calgary, June 29.—The coal miners' strike is over, provided that the miners in referendum vote in favor of the proposition that has been placed before them, and it is now certain that they will do so. The miners voted on Sunday, and reports are now coming in, and they are almost unanimously in favor of the agreement. The agreement is in the form of conciliation. The men do not insist upon the union shop, and the operators can hire and fire whom they please. On the other hand, the operators give in on their contention for lesser wages in mining pillars and some other forms of mining.

IS ANXIOUS TO PROTECT BIRDS

Naturalist Says White Settlers Are Robbing All Nests They Can Find.

Bonnycastle Dale, the naturalist and journalist, who has been visiting Mittenich Island, making a study of the bird life there, reports that the islands all along the coast are being raided by the settlers and the eggs taken for food. In that way the gulls are gradually being driven out. Practically all the first lot of eggs laid were taken, and up to the time he left only one nest of young birds was found.

Mr. Dale is anxious that the provincial government should take some action in the way of protecting the homes of the gulls from the raids of those who have nothing but the commercial instinct. It will be but a few years, if the present raids continue, before the gulls will leave the present breeding grounds altogether.

Mr. Dale is now going to Bare Island and to spend a month camping among the birds and studying their inner life. During the time he is there he intends to do what he can to protect them so that at least one brood may be allowed to hatch.

AN EDUCATION IN A FIVE-FOOT BOOKSHELF

Twenty-five Volumes Which President Eliot Considers Hold Essentials.

Dr. Charles W. Eliot, retiring president of Harvard University, has made public a partial list of the twenty-five volumes which constitute his five-foot shelf library, which he believes will give any man the essentials of a liberal education. In making choice among the different works of a great author the aim, he says, is to take the author's most characteristic work or those which will be most intelligible to the people of the day.

"It is my belief that the faithful and considerate reading of these books, with such re-reading and memorizing as individual taste may prescribe, will give any man the essentials of a liberal education, even if he can devote to them but fifteen minutes a day."

The selections as far as have been made follow. It is necessary to explain that several titles are supposed to be bound into one volume:

"Autobiography of Benjamin Franklin."
"Journal of John Woolman."
"Fruits of Solitude," by William Penn.

"Bacon's Essays," and "New Atlantis."

Milton's "Areopagitica," and "Tractate on Education."

Sir Thomas Browne's "Religio Medici."

Plato's "Apology," "Phaedo," and "Crito."

"Golden Sayings" of Epictetus.
"Meditations" of Marcus Aurelius.

Emerson's "Essays,"
Emerson's "English Traits."

The complete poems of Milton.
Ben Jonson's "Volpone."

Beaumont and Fletcher's "The Maid's Tragedy."

Webster's "Duchess of Malfy,"
Middleton's "The Changeling."

Dryden's "All for Love,"
Shelley's "Cenci."

Browning's "Blot on the Scutcheon,"
Tennyson's "Becket."

Goethe's "Faust,"
Marlowe's "Dr. Faustus."

Adam Smith's "Wealth of Nations,"
"Letters of Cicero and Pliny."

Bunyan's "Pilgrim's Progress,"
Burns' "Tam o' Shanter."

Walton's "Complete Angler," and
"Lives of Donne and Herbert."

"Autobiography of St. Augustine,"
Plutarch's "Lives."

Dante's "Aeneid,"
"Canterbury Tales."

"Imitation of Christ," by Thomas A' Kempis.
Dante's "Divine Comedy."

Darwin's "Origin of Species,"
"Arabian Nights."

Truffles are a species of subterranean fungus, and vary in size considerably, being sometimes found as large as a cricket ball. They are hunted for by dogs or pigs trained to find them by scent and to scratch them up.

AN AUSTRALIAN LABOR COLONY

Expenditure on Settlement Has Been Gradually Decreased.

Sixteen years ago the authorities of Victoria established at Leonatha, 70 miles from Melbourne, with which city it is in direct railway communication, a farming settlement where the city's unemployed, or at any rate some portion of the out-of-work, could be put to useful labor. The net annual expenditure on the undertaking has been gradually reduced from £4,000 to under £500, and it is hoped that the colony, by improved methods of management based on experience, will in a few years become entirely self-supporting, writes Murray Eyre in the Pall Mall Gazette.

The country around has been reclaimed from virgin forest; the hills are still tenanted by the ring-barked skeletons of the enormous trees that formerly flourished there; tall and straight and ghostly they stand, stretching white bare limbs towards the sky, reproachful in death of the destroying axe. Here and there patches of ground, cleared and cultivated by settlers, show up in strange contrast to the haggard giants, and the prolific yields of fruit, potatoes, onions, and other vegetables from this land find ready market in Melbourne.

The object sought in the establishment of the colony was to afford temporary relief at subsistence wages to able-bodied destitute men and so tide them over periods of stress. More than seven thousand have been so helped, and at the same time much useful experimental work has been carried out. Many kinds of fodders and grasses have been grown and their suitability for various uses tested; the best kinds of dairy cattle to breed are being ascertained; and all the artificial calf foods put on the market are given a practical trial. By these means much useful knowledge, available to the agricultural and dairying industries throughout the state, is being obtained, so that the ex-

penditure from public funds has a certain valuable return which cannot be shown in the annual balance sheet. Some of the men, when they have been on the farm for the maximum period of four months, or when they have £2 to their credit, go back to the city, where they gravitate to their old associations, and falling into their former evil ways soon qualify themselves for readmission. The superintendent trustee, in his report, says that "the condition of distress found among those seeking admission is due chiefly to the vice of drunkenness," and he advocates for the worst cases a more drastic form of treatment. While in constant employment on the farms they remain sober and industrious, but the influence of old habits is fatal.

On the other hand the short time on the colony has enabled many to make the fresh start which has led to their becoming useful and self-respecting citizens. Forming part of an institution run on practical lines, provided with work within their capabilities, given instruction in any branch of farming for which they may express a preference, they have seized the opportunity of equipping themselves to continue to fight the battle of life in the ranks of the workers on the land, which in Victoria offers a generous reward to steady labor.

One striking instance of success was related to me by the agent-general. When minister of lands, Mr. Taverner, on arriving at Leonatha on one of his official visits, was greeted at the railway station by a well-to-do looking man who had driven up in a gig. "You do not recognize me," said the man, "but to you I am indebted for a great deal. Three years ago you gave me a ticket for the colony," and thanks to it I have now a place of my own, and this is my own turn-out." After a short stay on the government farm he had found regular employment with a neighboring farmer, had saved a little money, taken up a selection, and is today one of the most prosperous small farmers in the state.

STEAMER QUADRA IS TO CARRY EARL GREY

Governor-General Will Go North on Her Instead of Lillooet.

Earl Grey will be here at the end of July or early in August and will go north on the steamer Quadra instead of the Lillooet. This is really the first arrangement that was made. Later it was decided to utilize the Lillooet for the purpose, but now the plans have been again changed and Captain Gaudin of the marine department, in making arrangements to have the Quadra cleaned up for the occasion. The steamer is just going out on her regular lighthouse duties and on her return will lie up for a fortnight while the necessary work is being done to make her fit to receive her distinguished guest. The orders are that she is to be ready to receive the governor on the 30th of July.

Captain Hackitt, who has charge of the steamer, has given up his cabin for the use of their excellencies and all the rooms in the stern of the steamer will be set apart exclusively for the vice-regal party.

FIRST LIFT OF FISH AT TRIAL ISLAND

Run of Sockeyes Not Coming to Traps in the Straits.

The first lift of fish was made yesterday at the trap on Trial Island, several tons being taken on that occasion. The trap is the property of Captain Matthews who also has several at Sooke. It is anticipated that the Trial Island trap may be worth as much as any of those at Sooke. The lift of spring salmon was as large as any taken at the other locations and that shows that it is on the route of the salmon run.

The run of sockeyes is not expected for a week or two yet. A few reports have been received that there are a great many in the straits, but the owners of the traps say that just at this time of year there are always a number of reports brought about the fish that are said to be coming.

SEALING IN SOUTH NOT PROFITABLE

Captain Balcom Says He Will Never Make Another Trip.

With her sides bare of paint from the water line half way to the deck after a ten months' trip in the South Atlantic, the sealing schooner Village Belle reached Halifax a few days ago. Capt. Leblanc reached Montevideo from the sealing grounds the last of May and landed 1,700 skins, a fairly good catch, valued at about \$5,000. The skins were shipped to London. Capt. Leblanc, who is a veteran in the seal hunting trade, said they went far beyond their old haunts and covered over 4,000 miles greater distance. Capt. Rube Balcom, one of the best known men in the sealing trade, said tonight: "I, for one, will never make another trip to southern waters, as there are too many in the business now and it is only once in a long time that you can make a profitable catch."

ACTIVITY ON WEST COAST OF ISLAND

Whaling Stations Making Steady Progress—Teas Arrives With Products.

Steamer Teas arrived from the west coast yesterday afternoon bringing 250 barrels of whale oil which will be shipped direct to Glasgow on the Blue Funnel liner Antiochus, now in port loading freight for the Old Country. Princess Ena is also bringing a quantity of the same product from the west coast, which will go on the same steamer to Scotland. When the Antiochus leaves she will have on board 2,000 barrels of oil.

On the trip from which she has just returned the Teas went as far north as Rivers Inlet, taking a number of Indians from Clayoquot, Nootka, and Kyuquot to work in the cannery of the B. C. Cannery Company. On her return from the inlet she brought 4,500 salmon cases from the Rivers Inlet sawmill for the Clayoquot cannery.

Both going north and returning the steamer had a number of passengers. A. W. McCurdy returned from a visit to Nootka, and half of Alex. Gillespie's survey party came down from Winter Harbor after putting in three months' work on the west coast. Dr. Bell Dawson, who has been investigating the matter of tides for the Dominion government, came on the Teas from Clayoquot, and H. W. Jones, of the same department, from Port Renfrew.

News from the whaling stations give the total catch for the season at the time the steamer left at 151 whales. Sochart still leads in the matter of numbers, that station being nearly 20 ahead of the other. The whaling steamer St. Lawrence, however, still has hope of snatching the blue ribbon from her rival the Orion.

In spite of the long trip the Teas made she arrived home, well on time, and will not go out again until Dominion day.

SCHEME TO COLONIZE BANKS ISLAND

William Lorimer Leaving on Steamer Amur to Explore it.

When the steamer Amur leaves for Northern B. C. ports on Dominion Day she will have on board William Lorimer, sr., of this city, who is going to Banks Island prospecting and land hunting. This is not Mr. Lorimer's first visit to the island. He already has a fair knowledge of it and he has in view a project to colonize the best agricultural districts. If the land turns out to be as he expects, it is Mr. Lorimer's intention to form a syndicate to purchase about 100 square miles which will be used for colonization purposes.

For several reasons, Mr. Lorimer says, the Queen Charlotte Islands have been prominently to the front, but he claims the other islands on the Coast are just as rich, both in land, mineral and timber. Banks Island is large, being fifty or sixty miles long and about half that width. While no steamer call there at present the Amur passes to the south of it on her way to Skidegate.

The steamer Princess May has been chartered by the Y. M. C. A. for an excursion on Dominion Day. The Princess Victoria, it is understood, will not lie over this week.

OPTION AT SIXPENCE ABOVE UNION RATES

Chartering Rather More Active Says Commercial News of San Francisco.

Chartering has been rather more active this week according to the Daily Commercial News of San Francisco. There has been further fixing of grain vessels at union rates, while on the other hand a northern loading option at 6d above the union figure. Further large government coal shipments to this coast are in view and a number of additional tramp steamers will be required for the business, adding considerably to the supply of tonnage available for grain loading later in the season. Two French ships, one of which arrived last month and one this month, have been ordered away in ballast.

In lumber chartering Puget Sound to Alcoa Bay has been done at 52s 6d, Puget Sound to Guaymas at the usual rate of 35s, while three West Coast vessels have been ordered north to load on owners' account. Coastwise business has been done at 4s for lumber and 12 for wheat, these figures showing no change in the market.

Offshore rates are quoted approximately as follows: Lumber from Puget Sound or British Columbia to Sydney, 30s 2s 6d; to Melbourne or Adelaide, 35s; Port Erie, 35s; to Fremantle, 37s 6d; to Japan ports (steamers), 30s; Callao, 38s 6d; direct to Australia, 30s; Valparaiso for orders, 40s 6d; 2s 6d less to a direct port; to South African ports, 50s 6d; to U. K. or Continent, 50s 6d; Guaymas, 35s; Santa Rosalia, 35s; Honolulu, 35s.

SIGNED FOR WIRELESS. Messages of Japanese Liners to Be Handled by United Wireless Company.

K. Komatsu, director general of communications of the Empire of Japan, has signed an agreement with the United Wireless for handling aerograms from the Japanese vessels arriving at Pacific Coast ports. Heretofore the Japanese liners have had no arrangements whereby they could communicate with land while off the American coast. The United States government wireless stations will not handle commercial messages.

The rate as agreed upon between the Japanese government and the United Wireless is eight cents a word. All the wireless instruments aboard Japanese steamers are controlled by the government, and for this reason the agreement was made by the government.

MARINE NOTES

Steamer Yucatan, of the Pacific Coast Steamship Company, has all her accommodation booked for the trip to Alaska, leaving here on Tuesday. The vessel arrives early in the morning and leaves at 11. The most striking feature of the British Board of Trade report respecting accidents and casualties which occurred upon the railways in the United Kingdom during the three months ended last December, is the statement that out of 27 persons who were killed no fewer than 15 were trespassers, the great bulk of these undoubtedly being suicides. The total number killed shows an increase of one compared with the corresponding quarter of 1908, the number of persons injured during the three months (2,049) showing a substantial reduction of 502.

POUND KEEPER AND DAIRYMAN

COUNCIL REFUSES ACTION IN MATTER

Electrical Wiring — Plumbing By-law—Condition of Gravel Pits.

An inquiry was held by the city council last night into complaints made by William Dockings, a dairyman of Highland district, against W. H. Craig, the pound-keeper. Both parties were present and were heard.

Mr. Dockings said he got an inquiry from the pound-keeper if he wanted another cow. On New Year's Day he saw Mr. Craig and paid \$10 on it and later paid the \$15 balance. The cow, after seven weeks, disappeared, and was found with the former owner, who claimed the sale by Craig was illegal. He was unable to get either the cow or the money he had paid. He was informed that Craig had first sold the cow to a boy under age for \$10, but that no money had passed and the cow was bought back.

The pound-keeper said the boy was in the employ of S. H. Stanley and after buying the cow found he could not pay for it and asked him if he could dispose of it for him. He gave the boy \$2 on his deal and then made several attempts to sell the cow, finally disposing of it to Mr. Dockings for \$23. In reply to an alderman Mr. Craig said the pound fees against the animal amounted to \$12.50, so the city was out \$2.50. This was the first instance in which a double sale like this had taken place.

The view taken by the council was that the transaction was a private one between the two men and that Mr. Dockings' remedy was legal proceedings against the original owner and present holder of the cow. Ald. Henderson, however, expressed the opinion that as the defence to any action would undoubtedly be that the official sale to the boy was illegal the city was to some extent bound up in the matter, and ought to ask the collector's opinion as to the legality of the sale.

Electrical Wiring.
A complaint against the civic inspector of electric wiring, J. Daly, supplementary to that made a week ago on behalf of A. B. Angus, was made by W. Peacock. This gentleman stated that the inspector had a mistaken idea of his duty; that the execution of the by-law was a farce and the inspection "not worth a row of beans" as a protection against fire; and that it was time the city revised the by-law.

The matter was referred to the electric light committee for report.

Mr. Daly, in reply to the Angus complaint, made through J. A. Alkman, wrote: "The allegation is contrary to the truth. I have never made public my opinion of Mr. Angus as an electrical work, nor do I know of his abilities as such beyond pointing out where his work did not comply with the by-law. Mr. Daly added that his only object was to secure compliance with the by-law and to that end he did not hesitate to point out where works were wrong and went to the trouble of explaining how the work could be remedied."

The letter goes to the electric light committee.

Plumbing By-laws.
The plumbing inspector reported in regard to a case in Victoria West where a square "T" had been used instead of a sanitary "T". He pointed out that the by-law made the latter imperative and he preferred it, but both were efficient and sanitary.

Ald. Stewart moved that the inspector be authorized to pass this case and suggested that the by-law ought to be amended so as to make either form of "T" permissible, seeing that the inspector reported they were equally efficient.

Aldermen Raymond and Henderson thought the by-law should be adhered to, and that this case should only be allowed as an exceptional one. The council so decided.

The sanitary inspector reported on the sanitary condition of that portion of the Spring Ridge gravel pits known as Haggerty's lake. He described it as "really a pond of stagnant water, polluted with the carcasses of dead animals."

On motion of Ald. McKenna the necessary steps will be taken to have the nuisance abated.

On the recommendation of the city electrician and purchasing agent a contract for 20,000 carbons was awarded to the National Carbon Co. for \$500, it being the lowest of three tenders. The Robertson Co. got the contract for the exhaust pipe for the high-pressure pumping station for \$180, being the lowest of five tenders.

Parks Board Recommendations.
The recommendation of the parks board that the pound by-law be amended so as to admit of the payment of a fee of \$1 to anybody bringing a stray animal to the pound was received and laid on the table, on motion of Ald. Stewart. The same treatment was accorded the board's resolution, fixing the superintendent's salary at \$150 a month from January 1st.

Ald. Stewart's motion for the abolition of the board did not come up.

The Woman's Auxiliary of the S. P. C. A. and Mrs. Kitto wrote in regard to the pitiable state of two squirrels and an eagle at Beacon Hill park.

Mayor Hall stated that these matters had been attended to.

J. H. Gray, who had been refused a building permit for a refreshment stand and bathing-house on lot 6, Crescent road, Foul Bay, wrote council to ask that one be issued. He stated that the building would not be used for a dance hall, nor would it be suitable for one.

The building inspector will be asked to report at the special meeting to-night.

William Grant, who has moved his buildings on Mary street back, asked that the permanent improvements on Shaw street be carried out at once. The

city engineer will be asked to report on Friday night.

The necessary by-law for the paving with granite of Cornorant street, between Store and Government streets, will be introduced, the necessary interval having elapsed.

The Standard Steam Laundry, Co. sent in a bill of \$35 for damage done to one of their wagons by a fire department reel. The bill was referred to the fire wardens.

Matron King of the isolation hospital, who has had six years' service, asked for a salary increase to \$65 a month. This was referred to the board of health.

The resolution adopted at the public meeting in regard to contract vs. day work held last week was received and referred to the streets committee.

RACE MEETING AT SEATTLE THIS WEEK

Fast Horses Will Compete in Contests to Be Held at Madison Park.

Seattle, Wash., June 28.—The opening day of the exposition race meeting, which begins next Thursday at the Western Washington fair grounds at Madison park, will bring out a card of five races full of interest to lovers of fast horses. According to the programme announced there will be three harness and two running events, all of which are arranged with a view of bringing out the classiest horses on the grounds for the opening day.

John Boileau, one of the best known starting judges on the coast, will arrive in Seattle this afternoon to take charge of the meeting. The meeting will be conducted under the rules of the national association and all races are open events with the exception of the special races to be provided for amateur riding and driving clubs.

It is announced that in addition to the regular professional races, a number of special events will be provided to be driven or ridden by members of the Seattle Speedway Club. These events will be for cups and other trophies offered by the association, and it is the intention to arrange at least one big inter-city amateur race in which the riding and driving clubs of Portland, Tacoma, Vancouver and Victoria have been invited to participate.

The Portland Hunt Club has also been invited to make entries for the hurdle race, open to members of recognized hunt or paper chase clubs.

Other special features will be added to the programme from day to day.

BASEBALL.

BEACON HILL WINS.

The Beacon Hill nine beat the North Ward team last night by 13 to 7. The game was ended for the North Ward men in the fifth when the winners scored six runs. The teams were:

Beacon Hill—Pitcher, Lang; catcher, Scott; 1st base, P. O'Rourke; 2nd base, Shanks; 3rd base, T. O'Rourke; short stop, Gravin; left, Townsley; centre, J. Meldrum; right, Ellis.

North Ward—Pitcher, Dakers; catcher, Menzies; 1st base, Cox; 2nd base, Baines; 3rd base, Bryndolison; short stop, McCarter; left, Cousins; centre, Johns; right, McConnell.

LANGE WILL PLAY AGAIN.

(Times Leased Wire.)

San Francisco, Cal., June 28.—Big Bill Lange, known for a decade to followers of baseball in the big league as "Little Eva," has consented once more to don a uniform and chase flies in the outfield. After refusing an untold number of offers to return to eastern fields, Bill has decided to get back into the game on the coast where the crack Transportation Club teams leave Saturday for Yosemite for a series with Major Denson's soldier team.

Lange will be among the boys, with his uniform checked in the baggage car ahead.

Ten years ago while with Pop Anson's Chicago Nationals, Lange was the sensation of the baseball world. The big fellow was a demon batter, and was the peer of any living outfielder in patrolling his garden. Bill's girth has increased perceptibly since his halcyon days, and a special uniform is being prepared for him.

LACROSSE.

GOING TO VANCOUVER.

The following team of the North Ward lacrosse club will go to the mainland to-morrow night to play against the Vancouver Juniors: Dakers, Noel, Menzies, Humber, Sylvester, Hodgson, Sweeney, Kelly, Bryndolison, McGregor, Mould, McConnell, Blake, Johnson and Phipps.

JUVENILES PLAY TO-NIGHT.

Victoria West and the Olympics play to-night at 6.45 at the Macaulay Point ground. The Victoria West team is: Goal, G. Brown; point, Davy; cover point, Wachter; first defence, A. Todd; second defence, G. Corkle; third defence, Shakespeare; centre, McBeth; third home, J. Corkle; second home, B. Todd; first home, T. T. Lunt; outside home, G. Kennedy; inside home, Lee. Reserves—H. Roms and E. and H. Popham.

THE OAR.

RACING SHELL SWAMPED.

Poughkeepsie, N.Y., June 28.—A terrific rainstorm swamped the shell of the Syracuse four-oared crew during practice yesterday and compelled the occupants to swim. All were rescued by the coaching launch. The water-logged shell was finally towed ashore.

QUEBEC IN 1950.

CANON HENSON HERE.

Noted Divine of London Will Address Canadian Club To-Morrow.

Rev. Canon Henson, of Westminster Abbey, is a visitor to the city, arriving here yesterday. To-morrow the distinguished divine, one of the best known preachers in England, will be the guest of the Canadian Club at a luncheon in the Empress hotel. The accommodation that the management of the hotel is able to place at the disposal of the club is only fifty, so that those wishing to attend should not delay securing their tickets.

Canon Henson has been making a tour of the United States, and is delighted with the country and the kind reception given him. He has been struck by the friendly feeling that prevailed everywhere to exist towards Britain—an augur of long peace between the two great English-speaking nations of the world.

Canon Henson, who is accompanied by his wife, will return to the Atlantic by way of Canada, stopping off at various points.

GRAND SUCCESS

Wonderful Growth of Sales During 1908.

The year just passed will long be remembered for the financial and commercial depression. Business houses all over Canada were affected. Most of them show a loss over 1907. Some did as much business last year as in the preceding one. A few—a very few—show substantial gains. In spite of "hard times" and "financial depression" the sales of "Fruit-a-tives" doubled in 1908 over 1907.

The National Drug & Chemical Co. of Canada, Limited, bought "Fruit-a-tives" in 100 gross lots (14,000 boxes). Lyman Sons & Company of Montreal, and Lyman Brothers in Toronto, also ordered "Fruit-a-tives" by the hundred gross lots. These big wholesale buyers bought such big orders simply because the retail dealers ordered so many boxes of "Fruit-a-tives"—and the dealers had to keep "Fruit-a-tives" always in stock to supply the constant growing demand of people in every section of Canada.

To-day, "Fruit-a-tives" are the most popular family medicine in the Dominion. In the big cities, in the smaller towns, on farms and ranches, "Fruit-a-tives" are the standby in curing all forms of Stomach, Liver, Bowel, Skin and Kidney Troubles, Rheumatism, Headaches and Neuralgia.

Are you a sufferer from any of the diseases? Don't hesitate a moment. Get a box of "Fruit-a-tives"—take them according to directions—and they will cure without fail. 50¢ a box, 6 for \$2.50, or trial size, 25¢. At dealers or from Fruit-a-tives, Limited, Ottawa.

Weak Over-worked Women

Who are broken down and made invalids by the drudgery of never ending household cares and duties, or by over-frequent bearing and nursing of children, and many other cares, burdens and strains which the weaker sex have to bear, are deserving of profound sympathy. But while sympathy is commendable what these unfortunate women most need is a good, honest, square-deal Restorative Tonic and Strength-giving Nervine and Regulator—one compounded and carefully adapted to act in harmony with woman's peculiar, delicate, ever-sensitive organization.

Who so well fitted to select, carefully proportion the ingredients and compound a remedy for the cure of these distressing and often pain-racking weaknesses and derangements, as the carefully and thoroughly educated and regularly graduated physician who has had a long and successful experience in treating just this class of cases.

Dr. Pierce's Favorite Prescription

THIS MEDICINE IS

A COMPREHENSIVE SERVICE

All the News of Canada, of the Coast, of the World.

Intelligence Dragnet Gathers All the Important Happenings for this Paper.
The Different Sources From Which The Times Obtains Its Splendid
News Service Are as Follows :

EUROPEAN SERVICE

THE EUROPEAN MANAGER of the United Press is Mr. Chas. Stewart, one of the best known of news gatherers in the world. While he is located at London, he keeps an alert eye on all European points, and he has that swift intuition, that "nose for news," which means "scoops."

Early in the spring the president of the United Press received the following dispatch from Stewart: "Gone to Constantinople." No Explanation was given, but subsequent events showed that Stewart had anticipated the cataclysm there, had hurried to the scene, organized his news syndicate, with reporters all through the affected districts, and had installed an experienced Turkish newspaper man as staff correspondent. Stewart was back in London before the crash came, but so perfect was his organization and so accurately had he anticipated the movement of events there that the United Press hopelessly distanced all competitors, and gave its papers the news of the deposition of the Sultan, Abdul Hamid, and the name of his successor while papers served by more ancient systems were telling of the retention of Abdul as a constitutional sovereign.

This is but a sample of the prompt and efficient way in which the news of the Old World is handled

CANADIAN EVENTS

*Dominion News, Covered by
Special Correspondents
of "The Times"*

CANADA IS RAPIDLY coming into its own, not only as to natural wealth and growth but as a source of important happenings. To specially provide for this the Times has its own representatives in Ottawa and Winnipeg, who compile for this paper the news of the east and the Canadian middle west, respectively. Many events in these districts which in a general way are of minor importance are of special interest to residents of Victoria because of the number of easterners and plains people who have settled on Vancouver Island. This service is being steadily expanded and assures Times readers of the news, not only of the world at large, but the particular news of their own land.

In this way it rounds out the splendid service which the Times is giving its readers.

COAST AND AMERICAN NEWS

THE LEASED WIRE which runs into the Times office has its northern extremity in Vancouver, and its southern terminus in San Diego. It runs northward from the latter point through the cities of San Francisco, Portland, Tacoma, Seattle and Bellingham. By this means, and owing to the fact that every paper taking the United Press service is a co-operative member of the organization and furnishes to the association the news of its own district, an almost instant report on all important news on the coast is obtained without having to filter out by the circuitous and slow methods which prevail unless up-to-date is used.

Eastward from San Francisco and Portland the other leased wires of the United Press connect the coast line with all the important eastern and middle west centres and by cable with the European office in London. A perfect news dragnet is spread in which not only ALL the news is obtained, but its delivery while it is still NEWS is assured.

A GREAT COAST TELEGRAPH SERVICE

FROM CALIFORNIA TO ALASKA

People like to hear, first, about themselves, and then about their sisters, their cousins and their aunts. This is the basic principle of news. A big gooseberry in your neighbor's garden is of more importance as a news item than a new volcano in Japan.

—Sir Edwin Arnold.

FROM CALIFORNIA TO ALASKA

If Sir Edwin Arnold was right, the news of the Coast, from California to Alaska, is of more vital interest to the people of Vancouver Island than important happenings in Georgia or in New Jersey.

The Times' leased wire, next to its efficiency and promptness in handling world events, is principally noteworthy for its ample Coast service. In this it has no peer. Thousands of words daily are delivered to this paper relating to Coast happenings.

Coast residents, therefore, can get the news of the Coast satisfactorily only by reading The Times.

This full and up-to-date compendium of news appears every night in The Times. It costs the reader no more than a paper with a weak service.

taining to-day.

Mrs. Haison, Belcher street, is one
of to-day's hostesses.

Dr. and Mrs. H. M. Murdoch, Winni-
peg, arrived in town yesterday, and are
guests at the Empress.

Mrs. Bucknam arrived in Victoria
last evening after a visit of several
months to eastern cities.

Mr. and Mrs. Furlonger left yester-
day for England, where they will make
their home in the future.

Mrs. Tennant, Superior street, is en-
tertaining Mrs. Alexander and Miss
O'Neill, of Port Simpson.

Mrs. Wm. Gleason has returned to
town after a most enjoyable two
weeks' visit in Vancouver and New
Westminster.

Mrs. Wm. MacLaren, Niagara street,
is enjoying a visit from her sister and
niece, Mrs. Williams and Miss Wil-
liams, of Cordoba, Man.

The annual commencement exercises
of the graduating classes of St. Ann's
convent are being held in Institute
hall, View street, this afternoon.

A gay party of tourists includes Mr.
and Mrs. L. H. Whitmore, of Ceres,
Cal., Mr. and Mrs. M. J. Sweeney and
Mr. and Mrs. O. H. Boyes, of Denver,
Colorado.

Miss Ida E. White of Minneapolis,
and Miss Irene Joselin, of Waitfield,
Vermont, who are touring the Sound
glaciers together, are spending some time
very pleasantly in Victoria.

Mrs. Albert Ward (nee Savage) will
receive to-morrow at her home, 1104
Johnson street, for the first time since
her marriage, and will afterwards be
at home to her friends on the last Wed-
nesday of each month.

H. Northcott, formerly secretary of
the Victoria Y. M. C. A., and who was
recently appointed to the secretaryship
of the Y. M. C. A. at Ithaca, will spend
a few weeks in this city before leaving
to take charge. Yesterday he went
over to Seattle for three days, and
after his return will call on all his old
friends here.

Mrs. Spofford and her sister, Mrs.
Clyde, intend leaving the latter part
of the week for their cottage at Shawni-
gan, where they will spend the sum-
mer months. Mrs. Spofford returning to
town occasionally to attend to the
many duties devolving upon her from
her position as provincial president of
the W. C. T. U.

Shawnigan Union Sunday School
Passes Resolution on Death of
Rev. Mr. Dever.

At the meeting of the Shawnigan
Union Sunday school on Sunday, a res-
olution was passed expressing sym-
pathy with Mrs. Dever on the death of
her husband, who passed away here
last week. Rev. Mr. Dever had been
pastor of the Methodist church at Dun-
can and had a good deal to do with
organizing the Bible class at Shawni-
gan. The resolution was as follows:
The Shawnigan Union Sunday school
and Onward Bible class join in extend-
ing their sympathy to Mrs. Dever in
her late bereavement.

The work that Mr. Dever began here
two years ago is still flourishing and
now the Onward Bible class will try
to be an honor to his memory, and we
hope it will be a more beautiful and
lasting monument than one carved by
hands.

He is not dead but sleepeth and will
be with us again at our great harvest
gathering.

"LADY FREDERICK"

Ethel Barrymore Will Appear Here
Friday in This Play.

After a remarkably successful run of
several months at the Hudson theatre
in New York, Miss Ethel Barrymore
will be seen at the Victoria theatre on
Friday in "Lady Frederick," the com-
edy by W. Somerset Maugham, in
which she has achieved her greatest
success. Mr. Maugham is easily first
among the British dramatists of the
day, and "Lady Frederick" is conceded
to be his best work. The company
provided by Charles Frohman for Miss
Ethel Barrymore's support is the same
that appeared with her during the long
run of the play in New York. It in-
cludes Bruce McRae, Norman Tharp,
Charles Hammond, Arthur Elliott, Or-
lando Daly, Jessie Millward, Vera
Stowe, Anita Rothe and others. The
plot of the play, the scenes of which
are laid at Monte Carlo, chiefly con-
cerns the efforts of a certain dapper
to prevent her young son from marry-
ing Lady Frederick, an attractive Irish
widow of slender means. Lady Fre-
derick has it in her power and wins the
battle, but rejects the young man, for
he is several years her junior, and
marries his uncle.

ORGAN RECITAL AT ST. ANDREW'S CHURCH

W. H. Hewlett of Hamilton and
Other Talent Will Take
Part.

This evening at St. Andrew's Pres-
byterian church an organ recital will
be given by W. H. Hewlett, Mus. Bac.,
of Hamilton, Ont. This recital will
prove one of the most enjoyable musical
entertainments of the season. Mr.
Hewlett will be assisted by Mrs. D. E.
Campbell, Miss Jessie McKilligan,
Gideon Hicks and Jesse Longfield.

The programme will be as follows:
Organ—Suite Gothique Boellmann
(Introduction and Choral—Minuet—Priore
et Notre Dame—Toccata.)
Organ—(a) Serenade from Arcadian
Idyl Lemare
(b) Gavotte Moderne Lemare
Vocal—The Penitent Van de Water
Mrs. D. E. Campbell.

Organ—Overture to William Tell, Rossini
Organ—Two Humoresques Borowski
Violin Solo—Cantilene Borowski
Jesse Longfield.

Organ—Fantasia Pastorale and Tem-
pest in the Alps Breitenbach
(The pastorale movement with which
this composition commences introduces
the "Rang des Yaches" so suggestive of
the mountains of Switzerland. This is a
strain of an irregular description, which
in some parts of Switzerland is sung or
blown on the Alpine horn in June to call
the cattle from the valleys to the higher
pastures. This movement is soon to be
interrupted by violent atmospheric dis-
turbances, after which the evening hymn
proclaims the tranquility of the scenes,
and twilight approaches.)
Intermission.

Vocal—O, Divine Redeemer Gounod
Miss Jessie McKilligan.
Organ—March Militaire Gounod-Archer
Organ—(a) Intermezzo in D Flat, Hollins
(b) Allegretto Volstenholme
Vocal—It Is Enough (from Elijah) Mendelssohn
Gideon Hicks.
Organ—March from Tannhauser, Wagner

MRS. FISKE

Famous Actress Will be at Victoria
Theatre Next Week.

Mrs. Fiske and her famous Manhat-
tan company will present "Salvation
Nell" at the Victoria theatre, Friday,
July 9th. From the present outlook, all
records of the theatre in the mail or-
der line will be broken, so great is the
public desire to secure good sittings.
The advent of Mrs. Fiske in any com-
munity is always the theatrical event
of the year, and her visits locally are
so few that the opportunity to see her
in this intensely interesting play, which
delighted New Yorkers for over half
the season, is being eagerly grasped.
It is rarely that any play meets with
such overwhelming enthusiasm from all
classes of theatregoers. This is due to
the universal appeal of the play—it un-
folds a love story which, for simple-
earnest, gripping power has never been
excelled on the American stage, at the
same time affording excellent acting
opportunities to a company numbering
more than fifty persons.

In Nell Sanders, Mrs. Fiske has one
of the greatest parts of her career, a
girl with whom every spectator sym-
pathizes wholeheartedly, from her first
entrance as forlorn, to her final glorifi-
cation as a powerful instrument for
good in the community.

DON'T MARRY TO EXCESS.

Mark Twain Issues Warning to Girl
Graduates at Baltimore.

In an address at the commencement
exercises of St. Timothy's School for
Girls, held at Baltimore a few days ago,
Mark Twain said:

"There is nothing for me to do but to
tell you young ladies what not to do.
There are three things that you should
never do on any occasion.

"First, don't smoke—that is, not to
excess. I am seventy-three and have
always smoked during my seventy-
three years to excess.

"Second, don't drink—that is, to ex-
cess.

"Third, don't marry—that is, to ex-
cess."

Concrete doors, molded in a single piece,
with steel cores, are a novelty. They are
said to be both damp and fire proof.

WEDDING ANNIVERSARY WAS CELEBRATED

Mrs. R. B. McMicking Gave
Smart Tea Yesterday
Afternoon.

Mrs. R. B. McMicking celebrated the
fortieth anniversary of her wedding
day by giving a very smart tea yester-
day afternoon at her pretty home, on
Kingston street.

The stairway of the reception hall
was banked with quantities of ferns,
spirea and marguerites, to which red
peonies lent an effective touch of color.
In the front drawing room an effective
color scheme was carried out with pink
roses and marguerites massed with
ferns and dogwood blossoms, while the
back drawing room formed a pretty
contrast with artistically massed quan-
tities of broom and spirea. The tea
room was very brilliant with red car-
nations and ferns, the ensemble effect
throughout being most artistic.

Mrs. McMicking was the recipient of
a great many very beautiful gifts from
old friends and relatives, and among
Mr. McMicking's gifts was a very
handsome ebony cane, with a silver
handle, engraved with his name in full.

Mrs. McMicking received her guests
in a very becoming gown in pastel
shades. Receiving with her was her
daughter, Mrs. Renwick, in a beautiful
blue gown. Mrs. Edgar McMicking, her
daughter-in-law, in her handsome
bridal toilet, and Mrs. Bainbridge, her
cousin, in a most becoming gown in
pastel shades. The Misses McMicking
wore very dainty pale blue lingerie
dresses of silk mull.

Assisting in the tea room were Miss
Jessie McKilligan, Miss Amy Fraser,
Miss Lott and Miss Morley, all of whom
were very dainty dresses.

Among those present during the af-
ternoon were: Mrs. Fred Jones, Mrs.
Morley, Mrs. G. Wilson, Mrs. Gordon,
Mrs. Taylor, Mrs. Stanton, Miss Law-
son, Mrs. McCurdy, Mrs. Monteth,
Mrs. Griffith, Mrs. Laury, Mrs. Moore,
Mrs. Chambers, Mrs. G. Mitchell, Miss
Williams, Mrs. Jackson, Mrs. Mitchell,
Mrs. Reid, Mrs. Hine, Mrs. Gibson,
Mrs. Hood, the Misses Sweet, Mrs.
Patterson, Mrs. Walt, Mrs. W. Wil-
son, Mrs. O. M. Jones, Miss Murray,
Mrs. Washon, Mrs. C. E. Wilson, Miss
Sehl, Mrs. Church, Mrs. Currie, Mrs.
Peak, Mrs. Creed, Mrs. Janior, Miss
McKay, Mrs. Spring, Mrs. Allan, Mrs.
Hamilton Jamieson, Mrs. H. Kent, the
Misses Fraser, Mrs. Forman, Mrs. Mc-
Millan, Mrs. Hardie, Mrs. Lubbe, Miss
Lubbe, Mrs. Atkins, Mrs. Angus, Mrs.
Erb, Mrs. Fraser, Mrs. Goodacre, Mrs.
Burroughs, Mrs. Lott, Mrs. Riley, Mrs.
R. Jones, Mrs. Edwards, the Misses
Russell, Mrs. Alkman, Mrs. McKenzie,
Mrs. Dalby, Mrs. Roger Wilby, Mrs.
Clay, Mrs. Gore, Mrs. Sayward, Mrs.
J. Hunter, Mrs. Bannister, Mrs. Earle,
Mrs. Carmichael, Mrs. Stannard, Miss
Stannard, Mrs. Baker, Mrs. Riemuller,
Mrs. Holgate, Mrs. Bevan, Mrs. Mc-
Killigan, Miss Paschall, Mrs. Jesse,
Mrs. Taylor, Mrs. Macrae, Mrs. Broder-
ick and a great many others.

NEW GRAND THEATRE.

This Week's Offering Received With
Favor—A High-Class Entertain-
ment.

Mlle. Loretta and Ben at the Grand
theatre last night evoked round after
round of continuous applause as the
two appeared in the nine separate
poses of representations of famous
paintings. The statue-like appearance
of the dog and his mistress was strik-
ing. Many may have thought the dog
was not real so still were his poses,
but these were enlightened when at
the close the handsome setter ran on
to the stage with his mistress to share
in the abundant applause.

Jere Sanford, the whistling virtuoso
and yodel singer, won a big share of
public favor for his first appearance
in Victoria. He has a clear tenor
voice that is pleasing all the time, and
his comedy is good. Too Much Wo-
man is the title of the sketch put on
by Rae and Brosche, full of humor
and merriment. The audience ap-
preciated the turn to the full.

Mac M. Barnes & Co. offer a jolly
matrimonial entanglement entitled
"Mrs. Potter's First," which kept the
audience in one roar of merriment un-
til its finale. Mr. Barnes, as the sup-
posed husband number one, was a fine
specimen of the rough and ready west-
erner, and Robert Graham, as the hen-
pecked husband number two, and Miss
Louise Reming as Mrs. Potter, played
their roles perfectly.

Miss Eva Mudge, a very pretty
young woman, with a good voice and
rare ability to change her toilet very
quickly, was the feature of the bill
yesterday. Could Miss Mudge be in-
duced to give a short course in Vic-
toria, it would be a boon to the long-
suffering escort on theatre nights.

Thomas J. Price was successful in
the singing of "Some Day," accompa-
nied by several fine illuminated pic-
tures, and the motion pictures were
well received. The Chariot March,
by Sousa, played by the Grand orche-
stra, was the subject for applause also.

THE POLLARDS.

Widow O'Brien Will Be Presented
To-night.

"Widow O'Brien," the Pollard's mu-
sical farce which comes to the Victoria
theatre for to-night and Wednesday
night, is said to be a rattling good
show and should attract a good-size
audience here. In Vancouver, it
is said that it is made up of almost
everything that is possible to produce
on the stage. Seats are now on sale.

The Honolulu Advertiser says, refer-
ring to the production: "The songs and
dances all went with a swing and go,
and the number of encores was so great
in many cases that the performers had
recourse to repeat verses. Where the
each of the performers have some-
thing to do that they know how to do
well. They can all sing, act, dance
and have a line of funny business that
one and all show their best of humor
and comedy that is in them and the
result was very good."

New York publishes one-hundredth part
of the entire number of the newspapers
and periodicals of the world.

Anty Drudge's Advice to Mrs. Careworn.

Mrs. Easywork—"Jack and I went to the theatre last
night. It was fine."

Mrs. Careworn—"And I suppose your wash got a lick
and a promise. Anty woman who does her work right
is too tired to go out Monday night."

Anty Drudge—"No, she didn't let her work go! I'll tell
you what she did. She used Fels-Naptha soap which
does the work in half the time and doesn't give you
a backache in doing it."

Here are two ways of washing.
Choose for yourself:

The Old Way. Get up at 5 o'clock.
Make hot fire, fill the washboiler and get it
boiling. Wet your white clothes, soap
them and put them into the boiler. When
they're boiled good and tender, rub them
hard on the washboard, meanwhile putting
others in to boil. Keep the fire good and
hot. It will fill the house with nauseous
steam but that's necessary in this kind of
washing. When noon comes, if the smell
of boiling clothes hasn't taken your appe-
tite, snatch a bite of cold lunch. When
you have the clothes boiled and rubbed
sufficiently, wring them out, go from the
steaming hot room into the cool air out-
side and hang them on the line. You'll
likely catch cold, but it must be done.

The New Way. Get up at 7 o'clock
summer and winter. Wet all your clothes,
soap well with Fels-Naptha and let them
soak in cool or lukewarm water for
30 minutes. Then rub lightly, rinse well
and hang out to dry. That's all. And your
clothes will be cleaner, whiter and purer
than you could get them in any other way.
The whole washing takes only a few hours.

Which way sounds best to you?

In using Fels-Naptha, follow simple
directions printed on the red and green
wrapper.

WORK OF TERM AT
QUEEN'S ACADEMY

Promotion Lists and Rolls of
Honor at Girls' School.

At the closing of Queen's academy
for the term a programme was ren-
dered in a most acceptable manner.

The cantata given by the senior and
intermediate classes is deserving of
special mention for the very credit-
able manner in which the solos, duets
and choruses were sung. Class sing-
ing has been added to the curriculum
within the past two months and is un-
der the charge of Mrs. Moresby, one
of Victoria's talented vocalists.

The programme was as follows:
Song, "The Roll Call," junior class;
recitation, "Peter Pringle," Roberta
Balcom; recitation, "There's Something
in the English After All," Eileen Mil-
ler; song, "Way Down in the Butter-
cup Meadow," junior class; recitation,
"Little Girls' Annie," Dorothy Mc-
Kay; recitation, "Acrostic on Canada,"
Hazel Fowler, Edna Sanders, Eva Grif-
fith, Grace Simpson, Betty Gray, Gwen-
doline Verrinder; recitation, "Brown's
Example," Ida Owen; cantata, "Mead-
ow-sweet," pupils of senior and inter-

LEGAL VIEWS OF RIGHT OF WAY

IRISH CASE OF MUCH INTEREST IS CITED

For Both Sides Strong Precedents Are Invoked by Counsel.

Legal arguments were heard yesterday afternoon by Mr. Justice Martin for and against the proposition that there was no case to go to the jury in Cross vs. E. & N. railway, the point at issue to the general public being whether or not the track is a public right of way between the city and Esquimalt. Matthew Fagan, the engineer who was in charge of the engine which ran over Mr. Cross, was the first witness for the defence. He said he was engaged in making up the passenger train and was pulling a coach off the turntable. After getting the signal he started, looking back towards the turntable until the coach cleared it. This he always did and the reason was that there is only a common latch to hold the table in place. He then rode on the right side of the engine for some time, when he stepped into the centre of the cab, the usual place for operating. Almost instantly he saw a man take what appeared to be a false step toward the siding on which the train was running, and at the same moment the man was struck. The bell was rung just before the train started, this being the rule.

Cross-examined by W. C. Moresby, the witness said he was fourteen years in the employ of the company. The yard engine he was driving was No. 8. It came from Wellington, where, he believed, it was used on the colliery tracks.

Would you say it was in first class condition? Yes, for the work it has to perform. How long after this accident was the engine worked? Five or six months.

Why is it not used now? As far as I can make out the work is too great for its capacity. How old is it? It is thirty years old, according to the name-plate.

Witness was not able to recollect whether on examination for discovery a couple of days ago he had said the engine was only worked for a month after the accident. It was all a matter of approximation. The engine was what was known as a one-man engine, and could be operated from the centre of the cab, so that a view of both sides of the line could be had. He had run the engine with another man on it; out on the road there would always be two men on it. This engine weighed sixteen tons, while the one now in use to replace it weighs between thirty and forty tons.

Did you ring the bell or blow the whistle before the accident happened? I gave the bell-cord one pull as the train started, but the bell tolled more than once. I looked out ahead and saw the whole siding was clear.

If you had had a man with you in the cab he would have been on the look-out on the left side?

Probably he would. Number eight, Fagan considered, was an engine which could be stopped easily. He saw many people using the tracks every day. When the train used to run to Lamson street a notice was put up on the roundhouse warning people not to use the tracks. He had never known people ordered off the tracks, but within the last few months there had been people ordered off the trestle by the bridge-tender, Carroll.

That would be when engines were switching? Yes.

In reply to J. E. McMullen, Fagan said a man could walk along the track in safety with a little care, except on the trestle or where the tracks had crossed.

E. P. Davis, K.C., in making a motion to dismiss the case on the ground that no cause of action had been proved, went into the legal points involved. Before he did so the jury were given their option to leave for the rest of the afternoon, but decided that they would remain. Mr. Davis argued that there could be no cause of action, as plaintiff was a trespasser or, at best, a bare licensee. It could not be held that the defendants were liable because they had permitted the state of things to continue which existed here, without prosecuting people under section 48 of the Railway Act. It is an almost similar case in England the lords of appeal held that there was no liability cast upon the defendant company because it had permitted people to cross its track.

In the case of Eccleston vs. C. P. R., where a band of thieves had been killed in Alberta, Mr. Justice Harvey gave damages on the ground that on the prairies there was no obligation cast on the company to fence its track from trespass. The full court upheld this. Mr. Justice (now C. J.) Wetmore, dissenting, and the supreme court of Canada adopted his reasoning, reversing the

trial judge, on the ground that the horses were trespassers and there was no duty cast on the company to look out for them.

Another English case cited was that of a lodger who used a ledge on the roof for drying clothes, and fell through a defective fence. It was held that lodgers were bare licensees in the use of the roof, and that the landlord was not bound to keep the fence round the roof in order. In still another case it was held that a defendant who hung a chandelier from the ceiling of a public house where passengers and others were likely to congregate beneath it, and hung it in such a way that it was likely to fall on them, had no responsibility for injury to plaintiff. Mr. Davis cited several other cases. One of these, a British Columbia case that went to the supreme court, was decided on the point that there was no reasonable or practical necessity for plaintiff to pass over a certain dangerous place; that there was a safe way by which he could have gone round he could not recover.

Mr. Peters, K.C., contended that the cases cited by Mr. Davis could not apply in such a case as this where, year in and year out, the railway company, no matter what its rights of ordering people off might be, allowed the public to go upon the tracks; practically gave to those who went on them a right to do so. Whatever might be the decisions in Canada or England, the last word on the point at issue had been spoken by the judicial committee of the Privy Council in March last, in the case of Cooke vs. Midland Great Western railway of Ireland.

In this case the children at a place in County Meath had for years been in the habit of playing about a turn-table, to which they obtained access through a gap in a badly-kept hedge. It was held in this case that there was evidence to go to the jury of actionable negligence on the part of the company; that the children were injured through the hedge and up to the turn-table by that negligence. Lord MacNaughton, in his judgment, said Mr. Peters, laid stress on the matter of the children being allowed to play with the turn-table rather than as to the matter of negligence. Instead of considering the children as trespassers or at best as bare licensees, as argued by Mr. Davis here, Lord MacNaughton held that the company should have considered its plain duty to keep the children away. He found that in their consideration of the case the jury had to consider what the history of the ground was.

In the present case, likewise, it would be for the jury to consider the history of the ground; to remember that for twenty-two years or more the public had been walking along the track, using it without any practical attempt to hinder, lessen or prevent its use for such traffic except on special notice, to prevent people going over the line during a particular time. In the Irish case Lord MacNaughton said that in spite of a notice board "idly forbidding" trespassing, this had been a place of habitual resort for children for years. It was the same here. There was a notice board at the bridge end of the trestle, "idly forbidding" trespassing, but the use of the track for twenty years had been habitual for over twenty years.

At this point court adjourned.

HE FOUND THEM THE BEST OF ALL

WHAT RUFUS HARRIS SAYS OF DODD'S KIDNEY PILLS.

After Trying Five Doctors for His Kidney Disease He Found Relief in the Great Canadian Kidney Remedy.

Hurdville, Ont., June 28.—(Special)—"After trying five doctors for Kidney Trouble, from which I had suffered for three years, I find that Dodd's Kidney Pills relieve me best of all. If I keep on feeling as I have since I began taking Dodd's Kidney Pills I shall be well pleased and I am hoping they will cure me."

So says Rufus Harris, well known in this village. "I had stiffness in the joints," he continues, "cramps in the muscles, backache and was heavy and sleepy after meals. I was depressed and low spirited, perspired freely, was often dizzy and always thirsty, but since taking Dodd's Kidney Pills I am feeling very good."

If you have any of the symptoms, Mr. Harris tells of, it is time for you to beware. They are the symptoms of Kidney Disease and may be the forerunners of Rheumatism, Dropsy, Lumbago, Heart Disease, or even the dread Bright's Disease itself. Take warning and guard against suffering or even death itself by putting the Kidneys in good working order with Dodd's Kidney Pills.

THE COW WILL MAKE QUEBEC RICH.

Sir Lomer Gouin, K. B., contributes to Collier's of July 2nd the fourth article in the series, "Canada of the Future," as it applies to Quebec. Quebec's remarkable growth in dairy products and other musical figures are prophetic of Sir Wilfrid Laurier's forecast, that "the 20th Century belongs to Canada."

Excursions among the Thousand Islands of the gulf by V. & S. railway and steamer Iroquois will commence July 1st. Take a trip and you will be delighted.

MISSION FURNITURE

AN EXCELLENT ASSORTMENT OF THIS POPULAR STYLE

SOME years ago, when there was a genuine craze for extreme designs in Mission Furniture, many predicted that this furniture style would soon "go out," but the contrary has happened. Designs may perhaps be less "extreme," though we believe the main reason for its continued popularity is the fact that more people are learning of its great comfort, solidity, lasting powers and the ease with which it may be kept free from dust. The popular Early English finish overcomes the objection of those who didn't fancy the "dead" finish of some years ago, and it is in this Early English finished Mission furniture that we specialize. Our offerings include pieces for most any room in the home, for we have many splendidly designed pieces for

BEDROOM, DINING ROOM, DEN, HALL, LIVING ROOM, CLUB

Come in and see the great choice in this style of furniture. We shall be pleased to show you through the stock or you may roam around at your leisure and there isn't the slightest obligation to purchase.

IS IT A PIC-NIC ON THE "FIRST"? IF SO, HERE ARE SOME NECESSARY ITEMS

IF YOU are going for a picnic on the first of July you'll probably be interested in these few items. Certain it is you'll be taking a good, substantial lunch along with you and you'll want some means of conveying it to the picnic grounds. We are ready for you with an excellent assortment of little priced lunch baskets that are decidedly stylish in appearance. Prices are just as attractive as the baskets, for we have them at—

25c, 35c, 50c and 75c

Put in one of these lemon juice extractors and have a refreshing drink of lemonade. There isn't anything better for extracting ALL the juice of the lemon and there isn't another extractor so easily cleaned. All glass. Priced at, each, 15c and 10c.

Many other items for picnic parties, such as little priced crockery, cutlery, etc., are here for your inspection. Before you go on a picnic or camping excursion come in.
